

LAKEHEAD UNIVERSITY  
OFFICE OF NATIVE PROGRAMMING  
COMMUNITY OUTREACH REPORT

Prepared for: Lakehead University  
Native Advisory Committee  
Date : March 6, 1991  
Prepared by : Marie Pitawanakwat  
Coordinator  
Native Programming

The information presented here outlines the dates on which telephone calls were received, and the name of the First Nation, organization, government agency, community group or program representative making the contact.

What is not presented is information on the frequency of telephone contacts, the nature of the inquiry received, the names of contact persons, a listing of telephone calls made to community organizations, the nature of correspondence received, the amount of correspondence sent out, or the nature of follow-up which took place following the telephone inquiry.

The information is presented in this format so as to indicate the type of organization which contacts the Office of Native Programming, the approximate geographical area covered and to present a representative sample of the range of agencies and organizations which reaches the Native Programming Office.

The time span covered in this presentation extends from April 1, 1990, to March 5, 1991, a period of eleven (11) months. The period from April 1, 1990 to June 30, 1990 is a half-time period. The period from July 1, 1990 to March 5, 1991, is a full-time period. From July 9, 1990, to March 6, 1991, administrative assistant services were and are available through Ms. Arlene Drake, Secretary to the Office of Native Programming, through whom telephone inquiries are channeled.

Meetings, seminars, works sessions or conferences are not discussed. An analysis of these would also provide a picture of the extent, nature, scope and range of community activities conducted.

Other types of community outreach undertaken are:

- 1) television interview, February 14, 1991, on the "Ahneen" Show, hosted by Barbara Carpenter, through the Maclean Hunter Community Cable TV Programming;
- 2) a newspaper article submitted to the Coffee Time Gazette, a Thunder Bay community news publication, February, 1991;
- 3) a newspaper interview for the Thunder Bay Post, a community newspaper in Thunder Bay, March 1, 1991.

Slightly more than seventy (70) First Nations, organizations, government agencies, community groups, and program representatives are indicated in the information presented.

While travel to Native communities has not yet taken place, the activities described serve to indicate that the outreach activity has occurred through other means: telephone contact, correspondence, a television interview, a newspaper interview, submission of an article for publication in a community newspaper, and a presentation at a distance education conference.
