

KAIJA MAKI

Kaija Maki was born in Finland, coming to Canada at the age of 5. Nature inspires her work, especially the beautiful birch trees, common to Thunder Bay and her native Finland. Art is also incorporated into her crafts and work on untraditional canvases. Kaija has a representational style of painting. She also teaches beginner watercolour classes, hoping to pass on to her students the techniques she has learned and to make their experience exhilarating. She is a member of the Finnish Canadian Artists, Northern Images Art Club, Artist's Palette, and Thunder Bay Regional Arts Council.
