C.P.U.O. Report To Senate

The following report on the 66th meeting of the Committee of Presidents of Universities of Ontario was presented to Senate at its meeting on Saturday, April 3rd, by Dr. J.H.M. Whitfield, the President's Academic Colleague on CPUO:

The 66th meeting of CPUO was held at Queen's University, Kingston on Friday, 12 March 1971. The following items were among those that the Committee discussed,

1. **Lapp Report** - CPUO agreed to set September 15, 1971 as the date by which each of the Universities should submit their reaction to, and position on, the Lapp Report on Engineering Education in Ontario. It was further agreed that the responses of the various universities should be sent to the Committee of Ontario Deans of Engineering (CODE) and that CODE would make a report to CPUO.

2. **Freshman Enrolment, 1971-72** - It was earlier reported that there might be a 3,600 place deficit for incoming students in the composite estimate of the universities. This deficit could be aggravated by the situation outlined in the following report of the CPUO/Department of Education Liaison Committee:

"Of approximately 7,500 students expected to graduate from teachers' colleges this year, there will be 2,166 already holding a degree and 1,139 already having had one or two years at a university, and these two groups alone can fill the likely demand for new teachers. Thus some 4,000 students will complete teacher's college and will not find jobs as teachers. How many of them wish to enter university?"

3. **Report of the Special Subcommittee on the Structure of the Ontario University System** - This report contained twenty-three (23) recommendations concerning CUA, the relationship of CPUO/DUA, and the structure of CPUO, including its operation and its relationship to the member institutions.

4. **Discussion with Hon. J. White, Minister of University Affairs** - The Minister stressed the need for the Universities to be accessible and responsive to public need, to improve their public image, and to keep costs down.

5. **A.C.A.P.** - The Executive Committee of CPUO is to proceed with arrangements for the Advisory Committee on Academic Planning (ACAP) and with implementation of discipline assessment procedures at the graduate level. Among the discipline groups to undergo assessment in the "first round" are Library Science, Chemistry, Economics, Sociology (including Criminology), and Education.

6. **CPUO Budget** - The total proposed budget for 1971-72 is for the amount of \$808,500. This compares to a budget of \$855,800 and estimated actual expenditures of \$725,600 for the current year.

Committee Appointment

Mrs. J. B. Belton, the Acquisitions Librarian, has been elected to serve on the recently formed Ontario Council of University Libraries' Standing Committee on Cooperation in Acquisitions. The Committee's function is to consider policy and the distribution of information concerning the purchase of collections within the Ontario Universities. The Committee also hopes to be able to assist with the location of rare and out-of-print material required by the participating libraries.

Mrs. Belton will be representing the particular interests of Universities whose size is similar to Lakehead University, including Laurentian, Trent and Brock.

Exam Identification

Students writing final examinations will be required to have their photo-identification to be admitted to the examination room. Admit-to-Examination letters will be provided by the Records Office for students who have lost their identification.

Faculty Executive

In recent elections, the Lakehead University Faculty Association chose the executive for the 1971/72 term.

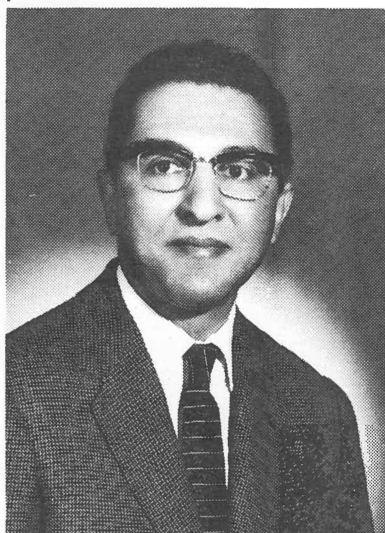

President	Dr. G. Engholm
Corresponding Secretary	Miss R. Candido
Treasurer	Dr. E. Eager
Recording Secretary	Mr. G. Vervoort
Member-at-large	Dr. J. Hilliker

The new executive assumed responsibilities as of April 1st.

Book Published

Dr. F. M. Ishak, Associate Professor of English at Lakehead University, has recently had published his fifth book entitled **The Mystical Philosophy of T. S. Eliot**. The book is mainly concerned with the philosophical bearing of Oriental mysticism on the poetic works of T. S. Eliot.

Dr. F. M. Ishak

In the work the author traces the ambivalent origins and developments of world mysticism insofar as they relate to the study of the organic evolution of Eliot's theory of mystical philosophy, and analyzes individual and groups of poems which are thematically related, in order to clarify the mystical tradition in modern poetry. Dr. Ishak suggests an approach

to settle such problems as the relationship between the poetic image and mystical vision, time and eternity, and becoming and being. Ancient, medieval and modern concepts of mystical philosophy, both Eastern and Western, are examined throughout the book.

Dr. Ishak came to Lakehead University in 1967 from the Higher Teachers' College of Ain Shams, University of Cairo. In addition to his recent book, he has just finished a complete translation of the Coptic Orthodox Liturgy into English, along with a detailed study of early monastic Orthodoxy.

Aesthetic Gallery

The Lakehead University Aesthetics Gallery presents the last in a series of exhibitions entitled "Contemporary Canadian Paintings" until April 23, open Monday through Friday from 9 a.m. to 9 p.m. in Room UC-2020. This collection, from the Winnipeg Art Gallery includes Etchings and Lithographs by Kathe Kolwitz (1867 - 1945), one of the great artists of recent times.

We have also been informed that the Lakehead Uni-

versity Aesthetics Gallery is being restructured in order to be able to operate within the community as well as on the University campus, and the future will be known under the name "Gallery".

Band To Perform

The Internationally acclaimed University of Minnesota Concert Band Ensemble, under the direction of Dr. Frank Bencriscutto, will be in concert at Selkirk Auditorium, Thursday, April 15th at 8:00 p.m.

With a background encompassing teaching, performing, conducting, arranging and composing, Dr. Bencriscutto has performed with the Fifth Army Band, the Eastman Wind Ensemble, was soloist with the Rochester Civic Orchestra and was featured Jazz soloist with the Minnesota Orchestra in 1970. He served as head arranger for the weekly broadcasts by the Fifth Army Band, and has composed a large amount of music for band and orchestra including two symphonies, several film scores, and a five movement Symphony Jazz Suite.

One of the highlights in the history of the University of Minnesota Concert Band Ensemble was a seven-week tour through the USSR in 1969 concluding with a White House performance in the USA. The band was enthusiastically welcomed wherever they performed in Russia.

As a result of the unusual success of the Soviet Tour, Dmitri Shostakovich, on behalf of the Soviet Government, invited Dr. Bencriscutto to be the honored guest of the Soviet Union during the International Tchaikowsky Competition in Moscow in June of 1970.

Tickets for the performance in Thunder Bay are \$1.00 for adults and 50¢ for students and are available at all High Schools.

Student Placement

Applications are being received at the Placement Office for the following positions:

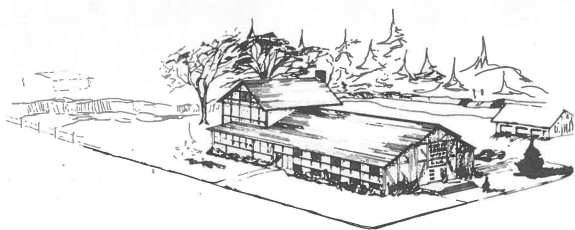

Tree Planters - Department of Lands and Forests, Province of Ontario.

Waitresses and Cabin Girls for various resorts in Northwestern Ontario.

Also of interest to concerned students, there are

various job opportunities coming open in relation to specific projects funded by the Federal Government in the area. There is a diversity of positions requiring responsible students (i.e. - research help and teaching help in the field of regional communications). Further information is available now at the Placement Office.

Vote To Determine Building Of Student Centre

In a letter distributed this week to all students, Pat Flanagan, Chairman of the Student Building Fund and AMS President, proposed the construction this summer of a Student Centre to increase space available for Student Club offices, and include special student facilities including lounges and a ball-room.

Plans include the renovation of the presently vacant house located north-west of the main entrance to the University entrance, along with the construction of an addition providing some 6,440 square feet. The existing building will include some 2,898 square feet of space for a total of 9,338 square feet. The extension will be constructed to allow for future expansion and the overall exterior design will reflect the Tudor influence.

Students also received a ballot with the letter that contains two areas of response:

1. Are you in favour of a student centre?
2. Are you in favour of a \$5.00 student building Fund fee to be added to your fees to help pay for your student centre?

Fifty-one percent of students must vote on this matter before any decision can be reached, and a majority of fifty-one percent of the total of those votes would have to be favourable in order to allow construction to begin early this summer. It is hoped that the project would be completed for use in September of this year.

Inter-Provincial Library Agreement

The Ontario Council of University Librarians, an affiliate of the Committee of Presidents, and its counterpart in the Province of Quebec, the Conseil de coordination des bibliothèques des universités du Québec, recently concluded an agreement to reciprocate acceptance of faculty introduction cards issued by university libraries in each jurisdiction.

University faculty members from Quebec and Ontario will now be able to visit and use university library facilities in either province. Regulations to apply for inter-provincial visiting privileges will be those of the host library in each case. Introduction cards for Lakehead University faculty are available in the office of the Reference Librarian.

This latest step widens the original cooperative-use agreement first implemented by Ontario university libraries in 1967 to give faculty members and graduate students access to all university library resources in Ontario.

Research Grant

Dr. R.G. Rosehart of the Department of Chemical Engineering, Lakehead University, has been awarded a \$7,000 grant from the National Advisory Committee on Water Resources Research, a division of the Department of Fisheries and Forestry of the Federal Government.

The money will be used for the detection and economic removal of Arsenic from mine process waters. This is an extremely important problem in many parts of Canada including Northwestern Ontario.

LU Week Summer Schedule

With hope in our eyes, but trepidation in our hearts, the LU WEEK will go to what we anxiously refer to as our "Summer" Schedule. Further issues of LU WEEK will be published on an irregular basis, although a bimonthly edition will be published whenever possible.

As a result of this, anyone having information to be published that is dated, is asked to inform the Information Office at the earliest possible time in order that it might be scheduled for publication in an edition printed prior to the occasion. We look forward to receiving news of special spring and summer events and accomplishments as well as special feature material.

weekly events

Thursday
April 15 Minnesota University Band under the direction of Dr. Frank Bencriscutto, will perform at Selkirk Auditorium, at 8:00 p.m. Admission is \$1.00.

Saturday
April 17 Lakehead Symphony Orchestra presents JAN RUBES, Bass - at 8:30 p.m. at Selkirk High School.

Sunday
April 18 Lakehead Symphony Orchestra presents JAN RUBES, Bass - at 3:00 p.m. at Selkirk High School.

LU Grad Honored

Recently, Mr. D. E. Ayre, Secretary and Registrar of Lakehead University received information regarding an award given to a most notable graduate of Lakehead University.

Dr. Dominic Lam, a Research Fellow at the Harvard Medical School, was awarded a Canadian Medical Association Centennial Fellowship in the amount of \$11,000.

Dr. Lam entered Lakehead University as a first year Science student in September 1964, completing his Honors B.Sc. in May of 1967. He continued his studies at the University of British Columbia where he fulfilled the requirements for the Masters in Science degree in the spring of 1968. He completed his Ph.D. degree in Physical Biology at the University of Toronto in the spring of 1970, and in the same year commenced post-graduate work at the Harvard Medical School.

Dr. Lam has indicated that his brother Joseph hopes to commence his degree program at Lakehead University in the coming academic year.

Centre To Be Extended

Following the successful Parent-Child Pre-School Centre at the Windemere Nursing School in St. Michaels and All Angels Church, it was decided to have a "mini-centre" for six additional weeks, starting Tuesday, April 13, 1971. The fee will be ten dollars and again parents will have an opportunity to discuss child development while children play in a nursery school setting. For further information call Mrs. Patti Ahearn, 767-1817.

The Centre is co-sponsored by Lakehead University and Confederation College Extension Departments.

meetings

Thursday
April 8 A.M.S. Council Meeting, Board Room, 8:00 p.m.

Campus Notes

□Mr. S. Paul Kennedy has been appointed Comptroller of the Alma Mater Society for the term ending March 15, 1972. Mr. Kennedy has long been active in AMS matters, particularly with the area of finance over the past two years. Mr. Kennedy will be responsible for assisting in the implementation of the changes brought about by recent internal reorganization.
