

MATHEMATICS STUDENTS AWARDED N.R.C. GRANTS

□ Two Lakehead University mathematics students who will receive their honors bachelor of science degrees with first class standing at Convocation Exercises on May 31 have been awarded sizeable grants by the National Research Council of Canada.

A \$3000 bursary was awarded to Mrs. Geraldine Service. She will study "Non-Standard Analysis" with Dr. C. F. Kent, chairman of the university's mathematics department.

Mrs. Service, the former Geraldine White, received the Governor General's medal as the highest ranking student in the graduating class at Convocation Exercises

in 1966. The award is now given to the highest ranking student in the fourth year of an honors program for the Bachelor's degree. In 1965 she was a Lakehead University scholar and also received the J. J. Doran Memorial Scholarship. In 1964 she was awarded the Lady Gray Chapter - I.O.D.E. Scholarship. She obtained first class standing in all three years.

A postgraduate scholarship amounting to \$3600 was awarded to Doug McKessock. He will study "Differential Topology" with Dr. J. Whitfield, Assistant Professor of Mathematics. Mr. McKessock was awarded first class standing in his graduating year.

Both Mrs. Service and Mr. McKessock are graduates of Fort William Collegiate Institute.

NRC grants are intended to assist students undertaking graduate study and research and are awarded on the basis of high scholastic achievement and research abilities.

Mrs. Geraldine Service

Douglas McKessock

WEEKLY EVENTS CALENDAR

MONDAY, MAY 19

UNIVERSITY CLOSED

8 p.m. Visual Arts 1 official Opening

Assoc. Prof. Martin Greenwood, second from the left, discusses the summer anthropological study of North-western Ontario Indian communities with honors anthropology students, from left to right: Simon Hoad, Jim Hyder and Joyce Kleinfielder.

WILL UNDERTAKE STUDY OF INDIAN COMMUNITIES

□ Anthropological studies to analyze and evaluate the effects of education programs in Northern Ontario Indian communities will be carried out this summer under the direction of Martin Greenwood, associate professor of anthropology at Lakehead University.

Three honors anthropology students from the university, Simon Hoad, Joyce Kleinfielder and Jim Hyder will assist Prof. Greenwood at Big Trout Lake. The research party will fly to the reserve on May 19.

"After the students have worked under intensive supervision", said Prof. Greenwood "they will fly 150 miles to Sandy Lake in July to conduct a joint study with less direct involvement by me".

The social anthropological studies will be undertaken in conjunction with the Youth and Recreation Branch of the Ontario Department of Education, which conducts adult education programs in the communities. The Branch had provided \$6000 to support the project.

The research will be concerned also with the effects of change in remote settlements with particular reference to the implications for younger people and for political organization in the two small-scale communities.

A preliminary report on the studies will be released at the end of this summer followed by a final report in the early part of 1970.

ARCHITECTURAL VIEWS OF AGORA, UNIVERSITY CENTRE EXTENSION

WILL START IN MORNING CONVOCATION WILL BE AN ALL-DAY AFFAIR

□ A record number of 400 graduands will be presented on Saturday, May 31 when Lakehead University holds its fifth annual Convocation Exercises for the Conferring of Degrees and Diplomas.

The unusually large number of graduands, almost double last year's graduating class, has necessitated one major change in the usual plan. Convocation exercises will begin at 10 a.m. rather than the usual 2 p.m.

Dr. John B. MacDonald, Executive Vice-Chairman of the Committee of Presidents of Ontario universities will be the special Convocation speaker. The actual exercises will be followed by a reception for graduates, family, faculty and administration. The Graduation Banquet and Ball will be held Saturday evening at 7:30 at the Port Arthur Armoury. Tickets are \$10 a couple and can be obtained from the AMS office in the Ponderosa.

Wendy Ticknor
... Graduating Class
President

Actual convocation events begin with the Alumni Association's Beef and Beer Passing Out Ceremony on Monday, May 26 at 7:30 p.m. The ceremony will be held in the University Centre and features free barbeque beef and beer for all alumni members and graduands.

The Chancellors Reception will be held on the eve of Convocation, Friday, May 30 at 5 p.m. in the University Residence Lounge. The reception is for all graduating students, academic and administrative staff and members of the Board of Governors.

Chairman of the Dept. of Economics, Dr. K. J. Charles will be the special speaker when the Baccalaureate Service is held at 7 p.m. Friday in the University Centre Theatre. The Fort William Male Choir will present an appropriate selection. The service will offer a moment of quiet meditation on the past years of study. Following the service there will be a reception in the University Residence Lounge for graduating students and others attending the Baccalaureate Service.

There will be a limited number of rooms in the Residence available to graduands returning for the Graduation weekend.

□ The Centennial Building's Agora, a Greek word meaning 'market place', will, with some modification, look like the above architectural drawing. The centre pillars will no longer be tapered and there has been a change in the design of the steps at the rear but the basic 'look' remains the same.

□ The above drawings by architect's Mickelson and Browne indicate the general design of the Residence Cafeteria, above, and the general student's cafeteria, below, in the new University Centre Addition.
