## Wright Commission Returns

Dr. D. T. Wright and representatives of his Commission on Post-Secondary Education in Ontario returned to Thunder Bay on Thursday and Friday of this week for a final series of meetings with representatives of Lakehead University and Confederation College, prior to submitting to the Government their report on the future of post-secondary education in Northwestern Ontario.

As in the past, Commission members met with representatives of the various groups, including faculty and students, of each institution. Unlike past visits, however, the Commission requested that meetings be closed sessions and be held off-campus.

In response to the draft reports of the Commission a Committee of Thirty, combining Committees of Fifteen from the University and the College, met to study the issues presented in the draft reports. Each Committee of Fifteen consisted of elected representatives of the Boards of Governors, faculty, administration and students. This Committee of Thirty established a subcommittee of Eight "to examine the alternatives, to receive briefs from interested parties, and to make recommendations to the Committee of Thirty concerning a structure which will ensure future coordinative and cooperative planning".

Ten briefs were received, six from individuals or groups within the academic community and briefs from interested parties in Manitouwadge, Atikokan, Kenora and Red Rock. The Subcommittee of Eight met several times and discussed at length alternative structural methods of achieving the desired end of "coordinative and cooperative planning", and presented a report on its findings to the Committee of Thirty. The Committee of Thirty agreed to present the following conclusions and recommendations to their parent institutions and to the study panel of the Wright Commission.

1. The Committee of Thirty rejects as impracticable and counterproductive the requirement of the Wright Commission for a "fully structured" solution to the problem of ensuring future coordination and cooperation between the two institutions.

2. The Committee of Thirty agrees with the Wright Commission that the optimum amount of coordination and cooperation in providing educational and training services to the people of Northwestern Ontario will be best achieved through volun-

tary efforts. It is equally convinced that this should be unstructured.

3. The Committee of Thirty recommends to their parent institutions that joint meetings of the two Boards of Governors be arranged periodically to review capital requirements and plans with a view to common utilization of facilities.

4. The Committee of Thirty recommends to their parent institutions the establishment of a standing committee, similar in structure to the Subcommittee of Eight, whose responsibilities would be to coordinate joint efforts in non-capital areas, to receive recommendations from the joint coordinating committees described in Recommendation 5 below, to create such additional joint committees as may be required, and to report to the appropriate bodies of both institutions.

5. The Committee of Thirty recommends to their parent institutions that joint coordinating committees be established where appropriate, whose task it would be to examine areas of cooperation and/or joint activity and to report their recommendations in this regard to the standing committee described in Recommendation 4 above.

6. The Committee of Thirty recommends that the above measure be implemented for a period of eighteen months, at the end of which time they will be reviewed by the two institutions to determine if the mutually desired results can be achieved.

The Committee of Thirty also agreed that the Subcommittee of Eight should be constituted as a Commission empowered to meet with the study panel of the Wright Commission. The Commission of Eight met with the Wright Commission at 10:00 a.m. on Thursday of this week.

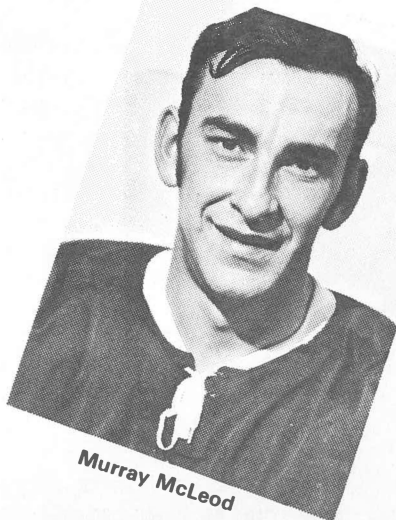

## Campus Notes

□ A Chemistry Seminar will be conducted on Monday, February 22nd by Mr. G. H. Sabiston, of Alcan Research and Development. His title will be "The Applications of Mineral Technology". The Seminar will take place at 3:30 p.m. in Room CB 1010.

**STUDY ROOMS** - A schedule of rooms available for study purposes has been posted on the Scheduling Bulletin Board and will also appear in the February 19th issue of the Argus.

### ATTENTION STUDENTS

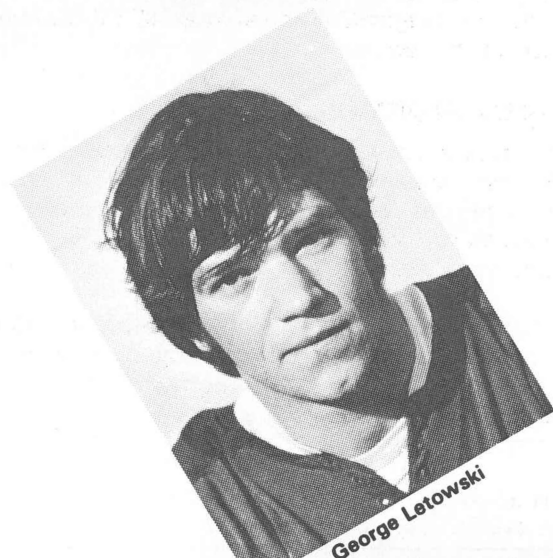

February 28th, 1971 is the last date for withdrawals WITHOUT academic penalty!

Murray McLeod

Larry Zulianello

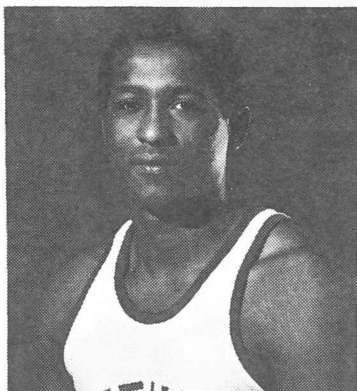

George Letowski

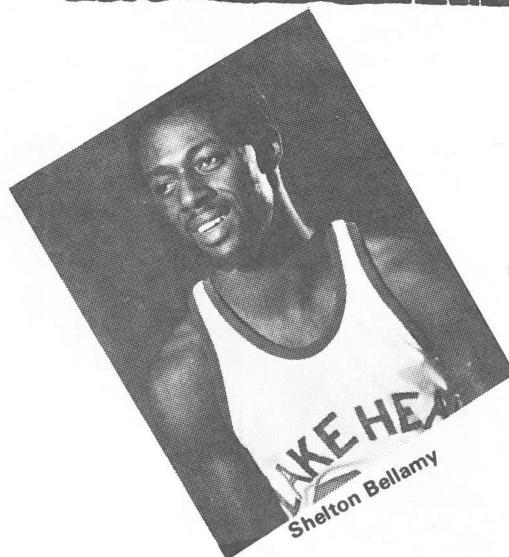

## Hockey

George Letowski continues to set a torrid pace in the scoring statistics for the Lakehead University Nor'Wester Hockey Team. In 21 games Letowski has better than a 2-points-a-game average, with 44 points on 17 goals and 27 assists. The ex-Fort William Hurricane product has been one of the main cogs in the Nor'Wester machine that has rolled to five straight victories in I.C.H.A. play. Following Letowski is opportunist Larry Zulianello who has the good habit of being in the right place at the right time. Larry has 42 points made up of 19 goals and 23 assists. Dave Vaillant and Murray McLeod follow with 29 and 25 points respectively. These four along with Rick Peotto or Terry Martinson have been devastating on power play attacks in recent games, seven of the teams last ten goals have been of the power play variety. Letowski, McLeod and Zulianello have figured in 50 of the 100 goals scored by the Nor'Westers this season. These three will be heavily counted on for the scoring punch necessary to win against Bemidji State College this weekend here at the Port Arthur Arena. Game time for Friday's and Saturday's encounters is 8:00 p.m. Following is the present I.C.H.A. league standings:

|                             | G.P. | W | L | T | Pts. |
|-----------------------------|------|---|---|---|------|
| Bemidji State Col.          | 8    | 6 | 1 | 1 | 13   |
| Lakehead Uni.               | 8    | 5 | 2 | 1 | 11   |
| Lake Superior State College | 8    | 3 | 3 | 2 | 8    |
| Wisc. State Uni.            | 8    | 0 | 8 | 0 | 0    |

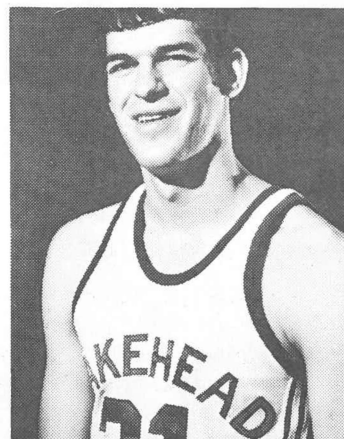

Joe Parks

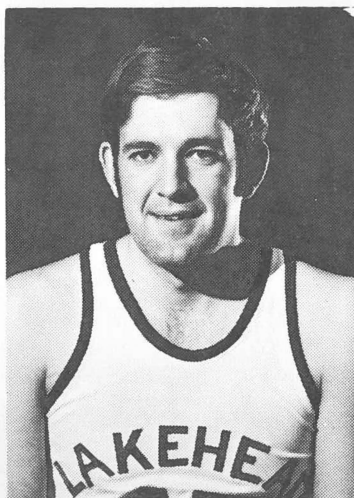

Shelton Bellamy

## Nor'Westers Close Season

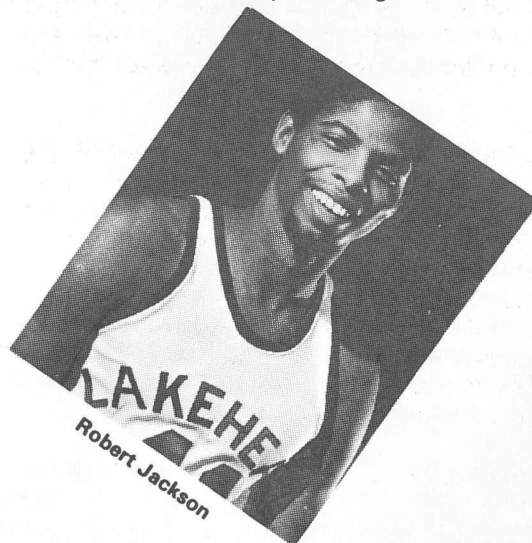

The Lakehead University Nor'Wester basketball team will finish its season this weekend in the Lea College tournament in Alberta Lea, Minnesota. The Nor'Westers will face the host team in the last game on Friday at 9:00 p.m. Playing for the last time in a Lakehead University uniform will be Robert Jackson, Shelton Bellamy, Jerry Hemmings, Joe Parks and Charlie Tallack. This quintet has paced Lakehead University to their finest two year basketball record in the history of the school. Hoping to take their first tournament championship, Lakehead University will face either Northeastern Illinois or McKendrie College in the second game. The Nor'Westers are currently riding a six game winning streak and should be in top form. Should the Nor'Westers win the tournament, they would equal last years win total of 22 victories.

Jerry Hemmings

Charlie Tallack

Robert Jackson

## weekly events

Saturday February 20 L.U. Hockey vs. Bemidji State at 8:00 p.m. in the Port Arthur Arena.

A.M.S. Movie, in the U.C.T. - "Valley of the Dolls"

Sunday February 21 A.M.S. Movie, in the U.C.T. - "Valley of the Dolls"

MONDAY, FEBRUARY 22ND TO FRIDAY, FEBRUARY 26TH IS "STUDY WEEK".

Wednesday February 24 The Incredible Forest - Extension course "Wood In Your Life" - 7:30 p.m. in Room MB1015.

Thursday February 25 Introduction to SNOBOL Programming - Part 2 - Mr. Guy Davis - 4:30 to 5:30 p.m. in Room CB1005.

Friday February 26 L.U. Hockey vs. Wisconsin State at 8:00 p.m.

Seminar in Chemical Engineering Technology - "Computer Applications in the Pulp and Paper Industry" - Mr. G. Fleming - 8:00 p.m. in Room MB1031.

Saturday February 27 L.U. Hockey vs. Wisconsin 8:00 p.m.

## Weyerhaeuser Lectures

The School of Forestry of Lakehead University recently received an award of \$1,000 from Weyerhaeuser Company to use at their discretion with regards to a subject in Forestry. As a result of this award, they are presenting the Weyerhaeuser Lecture Series on Forest Management, March 1st to March 4th. All lectures will take place in the Upper Lecture Theatre beginning at 7:30 p.m. They are open to the public and there is no charge for admission.

March 1st, the speaker will be Mr. Craig W. Rupp, Supervisor of the Superior National Forest, with comments on the problems in Quetico Park. March 2nd, Mr. Gordon D. Taylor, Director of Research and Planning for the Manitoba Department of Tourism will speak on "Problems of Managing a Recreational Park", with comments on the wilderness aspect and a reference to logging. He will also speak about the future of recreational parks and about Canadian park supervisory intensity.

On March 3rd, Mr. John A. Sandor, Deputy Regional Forester of the U.S. Forest Service in Wisconsin will speak on "Public Involvement in National For-

## meetings

The A.M.S. Council will meet at 8:00 p.m. on Wednesday, February 24th in the A.M.S. Board Room.

est Management" and talk about the latest logging trends in the National Forests of the United States as well as U.S. park supervisory intensity.

Mr. H. K. Eidsvik, Chief of Planning Division, National and Historical Parks Branch of the Department of Indian Affairs and Northern Development, will speak on "Federal Park Policy" with reference to forest management in the Northwest Territories and Indian Reservations and the financial aspects of park policy.

Following each speaker, a question period will be open to the floor. As soon as all schedules are confirmed, meetings will be arranged to allow students in the Forestry Department to meet with these guests. The Weyerhaeuser Lecture Series is being presented by the Lakehead University Forestry Association.

All lectures will be published and made available to those in attendance and other interested parties as soon as possible following the lecture series.
