Vice President Appointed At Lakehead University

Mr. J. M. Fleming, Chairman of the Lakehead University Board of Governors announced on Thursday of this week, the appointment of Dr. W. Donald R. Eldon as Vice-President of the University. Dr. Eldon was recommended to the Board by the President, Dr. W. G. Tamblyn, and had been endorsed unanimously by the Senate. A Vice-Presidential Search Committee, comprising representatives of the Board, Administration, Senate, Faculty, and Students, had also recommended Dr. Eldon for the position.

In this newly-created position, Dr. Eldon, who will join the University in September, will primarily be responsible for providing academic leadership and for co-ordinating academic activities, policies and plans as determined by the Senate. Dr. Eldon's experience as Associate Dean of Arts and Science and as Acting Chairman of the Department of Economics and of the Department of French Studies at Trent University has provided him with considerable insight into the problems facing a young university in Ontario in the Seventies. Dr. Eldon is currently on a sabbatical leave from Trent University, where he is a Professor of Economics. He is pursuing his research in England with the support of a Nuffield Foundation Fellowship.

Dr. Eldon received his B.A. at the University of Western Ontario, taking the gold medal in Honours History. He received his M.A. and Ph.D. in Economics from Harvard University. His publications include "Toward a Well Informed Parliament"; "Transport Costs as a Factor in Price Spreads of Food Products"; "Review of Federal Transportation Statistics"; "The 'Public Interest' in the Combines Investigation Act" as well as studies prepared for the Economic Council of Canada, the revised editions of which will be appearing in print shortly.

Prior to joining the faculty at Trent University, Dr. Eldon served as an Assistant Economist for the C.N. R. Department of Research and Development, was the Director of Research for the Progressive Conservative Party of Canada, and was an Assistant Professor of Economics at the University of Western Ontario in London.

Dr. Eldon has served as a consultant to the Royal Commission on Price Spreads of Food Products, the Royal Commission on Transportation and the Economic Council of Canada and has been a member of the Tariff Board and the Restrictive Trade Practices Commission. He was also an Associate in the consulting firm of Kates, Peat, Marwick and Company and acted as a member of the Advisory Board for Anglo-Permanent Corporate Holdings Limited; Fiscal Investments Limited and H. E. Hartley Consultants Limited.

Dr. Eldon is a Fellow of the Royal Economics Society, and a member of the Canadian Economics Association and the Information Industry Association. Born in London, Ontario, Dr. Eldon was married in 1958 to Jean Elizabeth McLennan of Brantford. They have two children.

Campus Notes

□ The School of Business Administration is assisting the Association of Municipal Electrical Utilities in planning a Conference to begin June 10th. Over 250 managers of utilities throughout the Province will be in attendance. Further information will be printed in a future edition of the LU Week.

□ Some thirty colleagues and students gathered Wednesday, April 28th in the home of Dr. W. S. Morris, Chairman of the Department of Philosophy to honour Dr. Frank M. Doan on the completion of ten years service at Lakehead University as Professor and Departmental Chairman. The occasion was marked with the presentation of a gift to Dr. Doan of Platos Dialogues (Jowett Translation), The Basic Works of Aquinas and A. A. Bowman, the Sacramental Universe.

□ The faculty of the School of Nursing, Lakehead University and the Lakehead Regional School of Nursing organized an Inservice Educational Conference April 18th and 19th. Dr. Beverley DuGas, a nursing consultant with the Federal Department of National Health and Welfare was the keynote speaker and resource person. Representatives from the various health agencies in Thunder Bay joined the teachers in discussion of the role of the Baccalaureate Nurse, the Registered Nurse, and the Registered Nursing Assistant in the hospital and the community. Mrs. D. Syposz, Mrs. C. Orlowski and Sister Barbara McKinnon were members of the planning committee.

Staff Resignations

President W. G. Tamblyn announced recently the resignations of two senior administrative officers of the University, Mr. W. D. Bohm and Mr. G. R. Lawrance.

Mr. Bohm came to Lakehead University in August 1968 as the Director of Admissions and Records, and has been responsible since that time for the various aspects of admissions, registration, and implementation of a new computerized records system which will allow the University to meet the many requirements for data and analyses for both internal and external functions. Prior to coming to Lakehead University, Mr. Bohm was Assist-

ant Director of Admissions at the University of Toronto and had had several years of experience with the Canadian Broadcasting Corporation. Mr. Bohm will leave the University at the end of the summer to pursue post-graduate studies in Higher Education at the University of Toronto. The positions of Director of Admissions and Registrar will be combined, while the Secretaryship of the University, which had been combined with the position of Registrar, will become a distinct position, reflective of the increasing responsibilities involved therein.

Mr. Lawrance joined the University in August of 1969 as the Director of General Services. In this capacity he has been responsible for the administration of food services, the bookstore and printshop, conferences and room bookings, the shopping mall, the development fund, office services and others. Mr. Lawrance's previous experience included over twenty years in industry, and he now plans to return to industry, in the field of communications. He will take up his new position, located in Columbus, Ohio, in June of this year. Mr. Lawrance's duties will be divided and assumed by a number of existing staff.

Research Money Awarded

The Department of Health of the Government of Ontario has granted an award to Professor Walter R. Crowe of the School of Business Administration to assist in the continuation of his research in the area of "Forecasting of Demand for Hospital Supplies". Professor Crowe will continue development for a computer based inventory control (demand forecasting) system which he designed for the Hospital for Sick Children in Toronto and will spend some weeks in the Operations Research Department of the Birmingham Regional Hospital Board in England, investigating recent developments in the British Health Service towards computer usage and hospital supplies.

Professor R. G. Rosenhart of the Department of Chemical Engineering received a research grant of \$7,000 from the National Advisory Committee on Water Resources Research to carry out a research project entitled "Arsenic detection and investigation of economic removal facilities for mine process waters".

Graduate Studies Survey

Dr. Melvin A. Preston, Dean of Graduate Studies at McMaster University, has been appointed executive vice-chairman of a committee which is to survey the whole area of graduate studies in all Ontario universities.

While he was resigned his appointment as Dean effective July 1 and been granted leave of absence, he will maintain his connection with McMaster where, as Professor of Theoretical Physics, he will continue to supervise his own graduate students.

The body where his executive leadership will be exercised is the Advisory Committee on Academic Planning. It has been charged by the universities of Ontario and the Department of University Affairs with making a thorough study of the entire graduate studies field in this province. Its recommendations will be aimed at making the best possible use of the human and financial resources available for post-graduate work.

Born in Toronto, Dean Preston took graduate and post-graduate degrees at the University of Toronto and later studied for his doctorate in mathematical physics at the University of Birmingham. He was appointed to the McMaster faculty in 1953, becoming a full professor in 1959. In 1963 he was appointed chairman of the undergraduate unit in applied mathematics and, in 1965, Dean of Graduate Studies. Following his undergraduate studies at the University of Toronto, he served for three years as an officer in the Royal Canadian Artillery.

He is much sought after as a lecturer in nuclear physics both in Canada and abroad. In 1961 he was elected a Fellow of the Royal Society of Canada.

COU Appointment

The Council of Ontario Universities announced today the appointment of Dr. M. A. Preston as Executive Vice-Chairman of a newly established Advisory Committee on Academic Planning effective July 1, 1971.

The Advisory Committee on Academic Planning was set up after extended discussion in the various provincial universities aimed at creating a structure to ensure effective planning and coordination of graduate studies on a province-wide basis. The Committee is to assist groups representing the

various academic disciplines to plan the development of their respective areas of study. The Committee will also recommend to the Council the carrying out of major reviews of the state of selected disciplines from time to time, and supervise the conduct of such assessments. The first such review, of engineering education, was published by the Council in January 1971.

The Council is planning to undertake a number of assessments of discipline development over the next several years. The tasks of the Executive Vice-Chairman will be to serve as a member of the Advisory Committee, to maintain liaison with discipline groups, and to make arrangements for the carrying out of discipline assessments.

The establishment of the Advisory Committee on Academic Planning is the latest in a series of steps undertaken by the Committee of Presidents and the Ontario Council on Graduate Studies over the last several years, with the general aim of creating an effective system of graduate education to meet the needs of the province.

Dr. Preston, a noted physicist, was born in Toronto, and received his PhD. from the University of Birmingham in 1949. He has served on the faculties of the University of Birmingham, the University of Toronto, and McMaster University. Since 1965 he has been Dean of Graduate Studies at McMaster University. Dr. Preston is a fellow of the Royal Society of Canada.

Shinerama Conference

From May 21-24, Lakehead University will be hosting the Ontario Shinerama Conference. Approximately 75 delegates from 22 Ontario Universities and Community Colleges will be in attendance to take part in work shops to discuss their Shinerama campaigns for this fall.

Registration of the delegates will take place on Friday, May 21. The opening session will feature a presentation on Cystic Fibrosis by Dr. MacGillivray, Director of the Ontario Society for Crippled Children. Also, the local Cystic Fibrosis Chapter will display and demonstrate the equipment needed to keep their Cystic Fibrotic children alive. The balance of the Conference will focus on Shinerama and concludes on May 24.

weekly events

Friday May 21 A.M.S. Shinerama - May 21-24
 Friday May 21 "Spring Session Dance and Social" to the "Pillar" Cafeteria - bar - 9:00-1:00 - \$1.00
 Thursday May 27 Alumni Association Annual Beef and Beer Bash in Main Cafeteria - 7-2
 Thursday May 27 Christian Science Lecture in UC 0050 (lower lecture theatre)
 Monday May 31 Lakehead Musical Production "Guys and Dolls" in University Centre Theatre - May 31 - June 4.

meetings

Thursday May 27 Christian Science Lecture in UC 0050 (lower lecture theatre)
 Friday May 28 Senate Meeting, 10:00 a.m. in the Senate Chambers.
 Tuesday June 1 University Extension Officers Conference - June 1-3
 Thursday June 3 Lakehead Regional School of Nursing in the Agora and Field House - June 3-4.

OCUFA Position

The Ontario Confederation of University Faculty Associations announces that it is now accepting applications for the position of Executive Vice-Chairman. The incumbent will be retiring to return to his university position on June 30, 1972. OCUFA hopes that it will be able to announce the appointment of his successor by the end of 1971, for a starting date around May 1, 1972.

The person they would like to hire is now an associate professor or professor in an Ontario university with an understanding of faculty association work, though we will, of course, consider all applicants. The job is a full-time one, and applicants must be willing to accept a three-year term. The salary will be negotiated. Benefits are comparable to those prevailing in Ontario universities.

Requests for more information, or applications, can be directed to The Chairman, Selection Committee, OCUFA, 40 Sussex Avenue, Toronto 181.

Paint A Panel

If you have artistic leanings, here's your chance to go hog wild during the Art Contest being sponsored by the A.M.S. Artist contestants will be given a designated piece of the fence surrounding the Academic Services building presently under construction, to decorate according to their artistic whims. Any type of paint may be used but it must be supplied by the artist.

On June 15th, a panel of judges including Mr. Ted Kayden of the Graphic Design division, Peter Humeniuk, Mrs. Helen Keller of Graphic Design and Jerry Van Trudo will decide the winners. First place will receive \$25, second, \$15, and third \$10.

Entrants are asked to notify the A.M.S. Office.
