## DRUG INFORMATION CENTRE SET UP TO SERVE UNIVERSITY COMMUNITY AND PUBLIC

●A new Drug Information Centre has been organized at Lakehead University to provide a service to all members of the university community as well as other interested persons.

The Centre is under the directorship of Ken Boshcoff, an Arts Student, and is being run as an extension of the Academics program of the Alma Mater Society. For the summer months, research papers will be done, information on all aspects of the drug scene accumulated and counselling on personal matters will be available. The Centre is situated in the office across from the University Centre Theatre, which formerly housed the Winter Carnival committee.

"This service has as its basic aims education and communication," commented Mr. Boshcoff "believing that much of the publicity given to the non-medical use of drugs has been based on ignorance and isolation leading to a tremendous over-reaction by adults in general and parents in particular."

### OFF-CAMPUS HOUSING BUREAU NOW IN OPERATION

●Students seeking off-campus accommodations at Lakehead University this summer will be assisted by the Off - Campus Housing Bureau under the direction of Jim Gellert and Susan LeSavage.

Approximately 1200 summer sessional and 540 Ontario College of Education (O.C.E.) students will be attending the university from June 29 to August 14. The Lakehead University Residence under its Director G. D. McLeod will absorb a healthy portion of this total but a substantial number require off-campus accommodations.

For further information, students may contact the Off - Campus Housing Bureau between 9 a.m. and 5 p.m. in offices 030-9 or 030-10 in the Agora, or phone 345-2121, extensions 215 or 239.

HARRY D. ELMSLIE

At present, an extensive collection of books on the drug culture, the post-drug experience, habituation and related literary works are available. Also, copies of authoritative magazine articles and scientific research papers are in stock. In addition, large stocks of Alcohol and Drug Research Foundation (ADARF) fact sheets are being distributed.

Mr. Boshcoff has spoken to parents, teachers and professionals in their various organizations and he has also delivered a report to the Le Dain Commission concerning local aspects of drug abuse. In addition to several conferences and courses on drugs, he has an in-depth knowledge of the drug culture. For those in need of counselling beyond this primary level, referrals to various professionals will be given upon request.

"Reading lists and magazines can be borrowed and reports of various types of drugs circulating will be published" said Mr. Boshcoff and he added: "Sorry, No samples!"

### GEOLOGISTS ON THE MOVE

●"Three members of the Department of Geology have got the 'travelling itch' this year" said Dr. Edward Mercy, Chairman of the department.

Dr. H. Loubat, Assistant Professor, has been invited, as Visiting Professor, to give a series of lectures on the geology of Canada at the Institut de Mineralogie de l'Université, University of Geneva, Switzerland. While in Geneva he will conduct a series of field excursions in the Alpine Mountains.

Dr. J. Franklin, Assistant Professor, is spending two months in Europe and Britain visiting various famous mining localities with two purposes in mind. By discussing, with local geological experts, the conditions of formation of these mineral deposits he will greatly enlarge his knowledge of his subject; but also, he will be seeking analogies with the mineral deposits of north-western Ontario and thus furthering his researches into the local metallogeny.

Dr. J. Talbot, Associate Professor, will be travelling to Missoula, Montana; unfortunately for the Department he will not be returning in the fall since he is taking up his appointment as Chairman of the Department of Geology in the University of Montana. All our good wishes go with him and we hope he will visit us from time to time.
