MOTHERSILL HEADS L.U.F.A.

Dr. John Mothersill

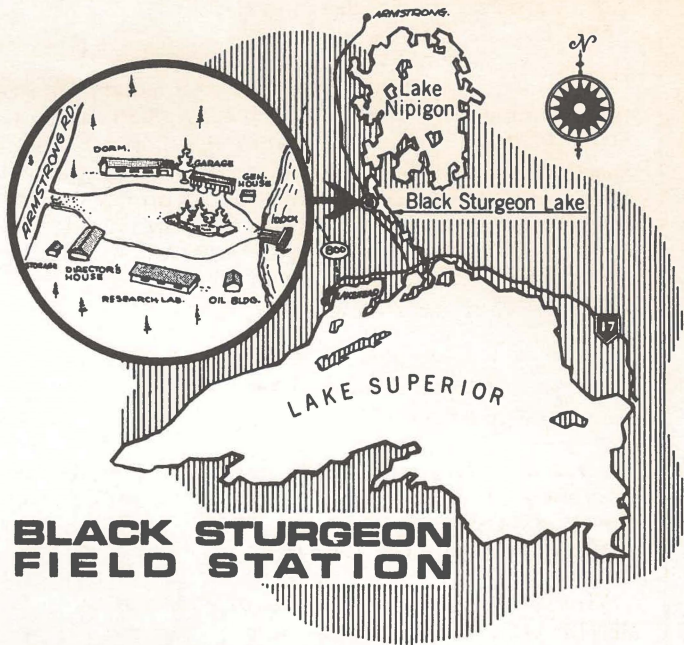

□ Outgoing president Dr. Donald Orr welcomed and introduced the incoming executive at the recent Lakehead University Faculty Association general meeting. The executive includes: Dr. John Mothersill, president; Dr. Agha Akram, treasurer; Dr. Ernest Zimmermann, corresponding secretary; Sister Barbara, recording secretary; and Alan Alexander, member-at-large.

* * *

films

□ "Shoot the Piano Player"; a film by French Director, Francois Truffault will end the 1968-69 Lakehead Film Society season on Thursday, April 10. The film is described as "half thriller, half parody" and will be shown at 8:30 p.m. in the University Centre Theatre.

Films made by the Advanced Creative Writing class (English 3w6) will be shown three times on Wednesday, April 9 on the television monitor in the Senior Lounge. The approximate times of the showings will be 10 a.m., 12 noon and 3 p.m.

STATION OPENED

□ Despite a heavy snow cover, a group of 16 third year geography students, led by lecturer Brian Phillips, visited the Black Sturgeon Field Station on Friday and Saturday, March 28 and 29 for an exercise in ground survey techniques. They were the first organized student group to use the University Research Centre.

The exercise involved the laying out of ground control for low altitude helicopter photography from which large scale sequential mapping of the changing topography of the snow surface could be obtained. The research program was, although feasible, a fictitious one in view of the cost of such mapping methods. But the students, divided into two competing survey parties, organized their activities well and spent a Saturday of magnificent weather engaged in the project. Each instrument tripod was supported on specially made wooden squares and each student wore snowshoes, resulting in difficulties seldom faced even by professional surveyors.

Each group calculated co-ordinates of their control points and presented a final base-map and verbal report on the Sunday afternoon. Both parties heavily criticised the others' methods and accuracy before packing to return home.

Apart from a good bit of work being completed, the excursion was also a social occasion. Saturday evening saw much singing to the banjo and saxophone and a look at several award winning and controversial films.

The students agreed that it would be a long wait for next year's trip.

CONVOCATION SPEAKER

□ Dr. John B. MacDonald, Executive Vice Chairman of the Committee of Presidents and former President of the University of British Columbia will be the speaker at Lakehead University Convocation Exercises on May 31, 1969.

The convocation was previously scheduled for May 24 but was put back one week due to the February study week which necessitated changes in the end of term and exam schedule.

HIGH SCHOOL SCIENCE FAIR

□ The annual high school students' Science Fair will be held Friday and Saturday, April 11 and 12 in the Great Hall of Lakehead University. Sponsored by the Science Teachers' Association of Northwestern Ontario, the exhibition will include science projects submitted by 68 students from high schools in the Lakehead and surrounding communities. The public will have an opportunity to view the exhibits and confer with the students on Friday from 8 p.m. until 10 p.m. and Saturday from 10:30 a.m. until 3:30 p.m.

UNIVERSITY COMMITTEE

SHOPPING MALL

☐ The services of a Lakehead realty firm have been acquired by the university to find tenants for the proposed shopping mall. Simon Hoad was nominated to act as A.M.S. Steering Committee Chairman to work with the Administration on the shopping mall.

PARKING

President Tamblyn stated that preliminary plans for re-allocation of University facilities might have to be altered, (e.g. University Centre Building) if a recent Dept. of University Affairs ruling sticks. It stated that there will be no funds for new Capital Projects in 1969-70. Only projects which are currently underway will receive necessary funds for completion. The ruling affects the parking lot expansion plans.

STUDENT FEES FOR A.M.S. PURPOSES

A.M.S. representatives felt that A.M.S. and S.A.S. Fees should continue to be compulsory.

OFF CAMPUS HOUSING

It was suggested that one student plus an assistant/secretary be appointed to run the Off-Campus Housing Bureau this summer.

COURSE EVALUATION 1968-69

The students do not plan any official survey.

MENTAL HEALTH SERVICES

An A.M.S. report stated the Lakehead Council of Churches had expressed an interest in having Minister-Counsellors on campus. Dean Kerr stated Ministers are welcome on campus but space is at a premium. He also mentioned that not all clergy are trained for psychological counselling. It was pointed out that where Ministers are on campus at other universities, these Ministers are appointed by their own churches, not by the university itself.

DAY CARE CENTRE

Dr. Tamblyn stated he will investigate an A.M.S. request to establish a Day Care Centre for children of faculty, administrative staff and students.

FEES

Tuition fees have not yet been decided. The amount of the government grant has just been announced, and the whole budget must now be reviewed.

CLASS SCHEDULING FOR ATHLETIC PROGRAM

Dr. Tamblyn agreed that, where possible, one or two hours a day should be kept free of classes to encourage athletics at the university. Space requirements and timetabling make this more difficult each year. He stated that this request would be taken into account by the Computer Programming Committee in preparing their timetable. The students suggested one or two "dead" hours per week for meetings, etc. would be useful. The students stated Saturday morning classes would not be well received.

STUDY WEEK 1969

The consensus was that study week had been most successful. It was recommended that it be continued at the same time next year.

CALENDAR 1969-70

The calendar is due in June.

REGISTRATION 1969-70

Each Arts department is to have a designated counselor and there will be four "deputy" deans as compared with two last year. The Arts faculty will do a considerable amount of counselling during the pre-registration summer months. A week of orientation for new students is planned in the fall.

Lakehead University WEEK

Lakehead University WEEK is published weekly by the Department of Information Services. Deadline for receipt of news items is 4 p.m. Wednesday of the previous week. Please submit written copy to the Information Office, Room 403 in the Library Building. Telephone 345-2121, Ext. 300.

RESEARCH GRANTS

☐ Alan McEwan, Director of the Computer Centre, has received a \$29,500 NRC Grant for the Centre to assist in the operation and maintenance of the university computer facility and to install two IBM 2741 communication terminals.

☐ Hawker Siddeley of Canada Limited, Canadian Car Fort William Division, has provided a grant of \$5,250 to the School of Engineering for research in the area of information and control systems for manufacturing production. Personnel involved in this project are Associate Professor Henry North, Chairman of the School of Engineering and Mr. L. C. Cooper of Canadian Car.

☐ Assistant Professor D. Roddy of the School of Engineering has received a \$2,500 National Research Council grant towards a research project concerning the optical properties of a class of materials known as semi-conductors.

F.W. BUS SERVICE ENDS

☐ The last day of bus service from Fort William to Lakehead University will be Thursday, April 10th, the last day of lectures.

Apparently Port Arthur bus service will not be affected.

BIRDCAGE?

☐ This sponge rubber sculpture was recently sold to CBC personality Stanley Burke. Created by local artist Charles Sharun, the piece was on display in the Great Hall as part of the week-long exhibit, Pulsation. Burke was in the Lakehead for a speaking engagement.
