A \$100,000 Surprise

It isn't everyday that an employee hands over a \$100,000 cheque to their employer, but that's exactly what happened one Friday afternoon in August. Office Services staff Robbie Ferguson delivered the cheque to President Rosehart on behalf of the R. H. W. Foundation. Robbie's uncle William Ferguson is the Vice-President of the Foundation.

The Banks Are On Our Side

All of the major financial institutions in Thunder Bay are showing support for Lakehead University's Partners' Campaign.

Representing their institution's support are:

Back row (left to right): C. Lloyd Hatcher, Manager, Toronto Dominion Bank; Robert Paterson, Chairman, Lakehead University, Development Council and an LU Board of Governor; Gary Drage, Area Manager, Bank of Montreal; Frank MacDiarmid, Scotia Bank.

Front row: Garth Young, Manager, Canadian Imperial Bank of Commerce; and Marv Detweiler, Manager, The Royal Bank of Canada.

Missing from the photo is Scott Douglas, Manager of the Continental Bank.

Canadian Forestry Service Awards \$46,400 To LU Graduate Students

\$11,600 each...Robert Haig, Deputy Regional Director, Canadian Forestry Service (center) presents scholarship recipients Alan Wiensczyk, Lisa Buse, Olenka Bakowsky and Hugh Loughheed with funds to further their studies in Forestry.

Four Lakehead University graduate students have been awarded \$11,600 each to further their studies in Forestry. Robert Haig, Deputy Regional Director, Canadian Forestry Service, Great Lakes Forestry Research Centre in Sault Ste. Marie awarded the Canadian Forestry Service scholarships at a recent reception at Lakehead University.

Recipients include: Thunder Bay resident Olenka Bakowsky who will look at the "Taxonomy and Hybridization of Sub-alpine and Western Larch"; Alan Wiensczyk from Toronto who will study "The Root Regeneration Potential of Black Spruce Container Stock in the Field"; Hugh Loughheed from Barrie, Ontario who will conduct research in "Forest Management Planning" and

Sudbury's Lisa Buse who will investigate "Improving the Winter Storage Ability of White Spruce by Root Culturing".

Each of the students are working towards their Master degree of Science in Forestry at Lakehead University.

Awarded for the first time in 1983, Canadian Forestry Service Scholarships are open to all forestry graduate students across Canada and are presented on the basis of scholastic achievement.

"Our main objective for providing these funds is to encourage forestry research by Canadians in Canadian forestry schools," said Mr. Haig. "The scholarships will help students make valuable contributions to the forest industry."
