Pottery

□ Last year Lakehead University began to set up a pottery studio on the campus. It is now reasonably well-equipped, and it is anticipated that by Christmas there will be three good electric wheels and a pug mill, as well as the present equipment - a kiln, lots of small tools, and quantities of clay and glaze material.

The plans for a pottery studio at the University for this year were discussed at a meeting of local potters held in the Aesthetics Lounge, Lakehead University on September 21.

"Spinning Wheel"

The public were invited to use the present facilities on a two-week trial basis. Dr. Eames, of the Mathematics Department, who led the discussion, pointed out that it was not the intention of the University to form a separate pottery club, but rather to provide the equipment and instruction on an individual basis: pottery, as distinct from most of the visual arts, involved a high initial cost, so it is reasonable to provide central common facilities, and this is what the University intended to do. Mrs. J. Ashby, who ran the very successful pottery course at the Free North Festival, has again been engaged to instruct. It was pointed out that her course would be rather unusual for the Lakehead in that it would not begin with discussion of ceramic philosophy nor end with an exhibition.

The Pottery will be open Monday, Tuesday, Thursday and Friday from 1:30 to 5 p.m. and Monday, Tuesday, Wednesday and Thursday from 7:00 to 10:00 p.m.

Wild Rice

□ Dr. S. R. Zingle, Assistant Professor in the School of Forestry, recently has been awarded another research grant from the Ontario Department of Lands and Forests in the amount of \$6,500.

Dr. Zingle is working on an ARDA Project on the propagation and management of Wild Rice in Northwestern Ontario. ARDA stands for Agriculture and Rehabilitation Development Act and the object of this project is to investigate the possibilities of providing better employment and higher income for the Indian population from Wild Rice.

Dr. Zingle has concentrated his research on underwater soils and on semi-terrestrial sites to find out about the natural position of Wild Rice stands in the landscape of Northwestern Ontario. Comparison is made to stands in neighbouring Manitoba, Minnesota and Wisconsin. Such study provides basic information for the management of Wild Rice as well as of fish and wildlife in Northwestern Ontario.

Campus Notes

□ The 1970-71 Athletic Service Program under the direction of Mr. G. Garvie, is an instructional non-credit program, for those interested in a variety of recreational activities. Classes will be held two hours per week for six weeks unless otherwise specified. Two sections are scheduled: SECTION A, October 12 - November 29 and SECTION B, January 12 - February 25. The different activities include Archery, Badminton, Fencing, Gymnastics, Judo, Karate, Self Defence, Social Dance, Staff Fitness, Table Tennis, Weightlifting, Tennis, Skiing, Golf, Jogging Club, Squash, and Women's Fitness.

The fees are \$15.00 per activity for non-students and \$2.00 for students. Registration will be held on Saturday, October 3, from 9:00 a.m. to 3:00 p.m. and Monday, October 5 to Wednesday, October 7 from 7:00 p.m. to 9:00 p.m. in the Athletic Building at Lakehead University.

For further information please contact the Athletic Department.

□ The following awards have been made to Lakehead University students by the National Research Council of Canada:

To: G. W. McLeod, a bursary

To: J. P. Kraft, a postgraduate scholarship

To: P. N. Kaszar, a postgraduate scholarship

□ Mrs. Helen D. Keller has been appointed Assistant Graphics Designer at Lakehead University.

□ The Student Awards Officer reminds students that the deadline for applications is October 31, 1970. This year, the applications are being processed and assessed by a computer, so please fill out the forms completely and accurately, otherwise, it may be rejected, causing a serious delay.

□ The National Research Council of Canada is once again seeking applications from those interested in participating in scientific exchange programs. Announcements and application forms for visits under the exchange agreements with the USSR, France, Brazil and Czechoslovakia may be obtained from the Dean of Science's office.

□ Mr. Dennis Wallace has been appointed as the Assistant to the Dean of Students, effective October 1st, 1970.

Mr. Wallace holds a diploma in Business Administration from Lakehead University and a B.A. in Political Science, also from Lakehead University. This past year Mr. Wallace served the students as President of the A.M.S. and is presently the Treasurer of Lakehead University Alumni Association.

□ There will be an open lecture; "The Scottish and the Canadian Sense of Identity", by Professor W. Stanford Reid, Professor and Chairman of the Department of History, University of Guelph, in the Upper Lecture Theatre (UC 2011) of the Centennial Building, on Saturday, 17th October, 1970 at 10:30 a.m. This lecture is sponsored by the Faculty of Education.

Professor Reid has played a leading role in the encouragement of Scottish studies in Canada and more particularly in his University. After the lecture and questions, there will be an open discussion in the Faculty Lounge, of any aspect of local history touching on the Lakehead's Scottish background.

□ For the next three weeks there will be an exhibition of photographs relating to the life and writings of Jonathan Swift on display in the Library lobby from 9:00 a.m. to midnight on weekdays and 9:00 a.m. to 5:00 p.m. on Saturday. This exhibition was brought to Lakehead University by the English department.

□ C.U.G.O. is holding a meeting Monday evening and Chairman Mr. W. Hanley, stated that submissions and briefs are still being accepted. He also said that the appointment of a Research Assistant will be announced shortly.

L.U. Research Team does Limnogeological Study on Lake Superior

□ Dr. Mothersill, of the Department of Geology, has just completed the second phase of a four phase Limnogeological study of Lake Superior. This research project is being sponsored by the Canada Centre for Inland Waters whose headquarters are in Burlington.

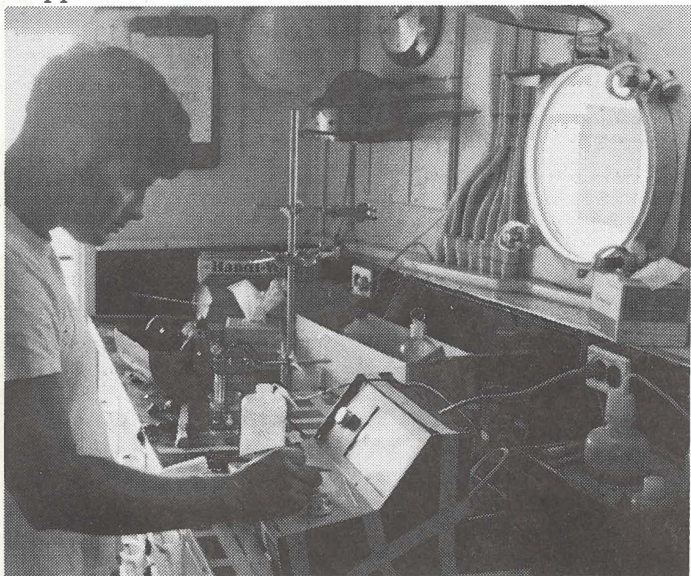

"Digging up Dirt"

This study is to examine the sequence and stratification of recent layers of sedimentary deposits and bottom fauna. Assisting Dr. Mothersill are three Geology students, Rich Middaugh, Roy Shegelski, Pat Fund and two technicians Pat Zurkan and Val Mothersill.

They used the 150 foot Department of Transport vessel, Port Dauphine for studies in Thunder Bay, Black Bay, and Isle Royal and set up station grids where they took a grab sample and a core sample. After the EH, PH and temperature were taken an analysis of the bottom fauna and sediment were done. So far the research team has found six new species of animal life that were not previously known to exist.

Dr. Mothersill said that the total amount in grants for this project is close to \$60,000. A preliminary report was completed last summer between the "Soo" and Michipicoten. The strongest indication of pollution was discovered this summer near Chippewa.

"Sea Lab"

Dr. Mothersill will give a paper on "Limnogeology on Eastern Lake Superior" at the Annual Geological Society of America Meeting, November 12, 1970 in Milwaukee.

A preliminary report was completed last summer in the "Soo" area. So far, the strongest indicator of pollution was discovered this summer near Chippewa.

Weekly Events

- October 2 I.D. Photographs will be taken in the Agora from 9 a.m. to 12 noon and 3 p.m. to 5 p.m.
- October 3 Registration for Oral French for Children 7 - 12 years of age at 10:30 a.m. for last year students and 11:30 a.m. for new students, with first class following each registration time. Registration for Athletic Service Programme from 9 a.m. to 3 p.m. in the Athletic Building.
- October 4 Movies in the U.C.T. from 6:30 p.m. to Midnight "Here We Go Around The Bulberry Bush" and "The Taming of The Shrew."
- October 5 Registration for the Efficient Reading Course at 7 p.m. in Room MB 1061 (Main Building) - Registration for Athletic Service Programme from 7 p.m. to 9 p.m. in the Athletic Building.
- October 6 Registration for Athletic Service Programme from 7 p.m. to 9 p.m. in the Athletic Building.
- October 7 Registration for Athletic Service Programme from 7 p.m. to 9 p.m. in the Athletic Building.
- October 9 Dance and Bar sponsored by Arts Society in the Cafeteria from 9 p.m. to 1 a.m.
Applications received at AMS Office by 5 p.m. for the three student senate seats.
Chemistry Seminar on 018 Transfer Kinetics by Professor Betts, University of Manitoba at 3 p.m. in Room LO.013.
- October 11 Dance sponsored by L.U.N.A. in the Agora commencing at midnight.

Meetings

- October 2 Meeting of the Academic Planning Committee in the Senate Chambers at 2:30 p.m.
- October 3 A.M.S. Council Meeting at 1:00 p.m. in the Council Chambers.
- October 5 Meeting of the Graduate Studies Committee in the Senate Chambers at 9:30 a.m. At 10:30 a.m. this meeting will be open to all Faculty members.
CUGO Meeting to be held in the Little Dining Room at 7:30 p.m.
- October 9 Senate Meeting at 2:30 p.m. in the Senate Chambers.
