

SPECIAL SENATE MEETING

A special meeting of the Lakehead University Senate has been called for Monday, September 14, 1970, at 12:00 noon in the Senate Chambers.

The meeting will consider ratification of the establishment by the Committee of Presidents of Universities of Ontario of an Advisory Subcommittee on Academic Planning. The function of the proposed Subcommittee is to conduct Discipline Assessments, "formal reviews of current and projected graduate and/or undergraduate programs within discipline groups," at the fourteen provincially - assisted Ontario universities.

Senate will also consider a letter from the President of Lakehead University to the Deputy Minister of University Affairs concerning the recent decision by the Department to withhold approval of current Capital Projects at the University, pending the report of the Commission on Post - Secondary Education. The Commission's report, dealing with the status of post - secondary education in Northwestern Ontario, is not expected until later in the Fall.

Senate meetings at Lakehead University are open to ticket - holders. Tickets may be obtained in the office of the Secretary of the Senate, Mr. D. E. Ayre.

FACULTY OF ARTS SEMINAR ON SURVIVAL

Contrary to opinion, students who fail at University (50% of those entering according to a recent report) do not fail because of lack of talent or intelligence; they fail simply because they do not know how to apply themselves or how to study.

Thus, the Seminar has two Main objectives:

To motivate the student and give him assistance on how to motivate himself.

To introduce him to the study skills: reading, listening, scheduling, taking of examinations, using the library, and writing essays and papers.

This seminar will be held the week of the 19th of October at 8:00 p.m. each evening. There will be no costs, however, there is a recommended text; *On Becoming an Educated Person*, by Virginia Voeks (W. B. Saunders Company, \$2.20).

Please direct further inquiries to: The Dean, Faculty of Arts, Lakehead University, Thunder Bay, Ontario.

REGISTRATION 1970

PARKING AUTHORITY

A meeting of the University Committee on Wednesday, September 2, 1970, approved the establishment of a Parking Authority for Lakehead University. The Parking Authority will be responsible for all parking lots on campus, will formulate and enforce regulations, and will determine and collect parking fees.

President Tamblyn explained to members of the Committee that the Provincial Government had discontinued its financial support for the operation and construction of university parking facilities. It has therefore become necessary to charge all members of the University community for parking privileges.

The Parking Authority will consist of three student members, three faculty members, and three administration members. Selection of members by the A.M.S., L.U.F.A., and the Administration should be completed by the end of the month, with details on parking regulations and fees to be announced sometime thereafter.

OFFICE RELOCATIONS

Please note the following changes in office locations. **The Canada Manpower Office, The General Service Office and The Office Services Department**, have moved from the first floor of the University Centre to the old Senior Lounge on the 3rd floor.

Mr. Hugh J. Parker - Chief Academic Services, Mr. T. A. Camby - Internal Auditor, and the Information Office are now located on the first floor of the University Centre, next to the Dean of Students Office.

12 Noon	MEETINGS MONDAY, SEPT. 14 Senate Meeting	Sen. Cham.
12 Noon	Board of Governors Meeting	Sen. Cham.

COMMISSION ON UNIVERSITY GOVERNMENTAL ORGANIZATION

The commission on University Governmental Organization has been appointed to:

"critically examine the existing governmental organization of the University and the functional interrelationships of its component parts, including the Board of Governors, the Senate, the Alma Mater Society, the Alumni Association, the Faculties, the academic departments and the administrative offices and departments in so far as they relate to these bodies.

In light of this study, the Commission shall make recommendations concerning the governmental organization which is most appropriate in order to best serve the interests of the University as a whole. The Commission shall also outline revisions to the Lakehead University Act which would be made necessary by the adoption of its recommendations. These recommendations shall be embodied in a report to the President of the University."

In order to accomplish this task the Commission is earnestly soliciting opinions on Lakehead University governance from all concerned. Accordingly the Commission would appreciate the expression of your thoughts by way of a written brief, supported by an open hearing if you so desire.

Below is a preliminary list of issues to which you may wish to address yourself either in whole or in part. The issues and questions are intended only to provide guidance and a framework for the collection and analysis of opinion, information and evidence; *in no way should you feel restricted to the subject headings or queries.*

Again, on behalf of the Commission and in the interests of the University, its members and the community, I urge you to present your views as soon as possible (but not later than November 16, 1970) on these critical topics. Temporarily my academic office (L4044) will serve as that of the Commission and I would be pleased to hear from you as to your intention to submit an early brief.

Sincerely,
(Prof.) W. J. Hanley,
Chairman, Commission on
University Governmental Organization.

POSSIBLE ISSUES FOR STUDY

1. The Purpose of Lakehead University

Are specific goals and objectives definable? Should this university seek a unique educa-

tional posture specifically attuned to its environment, play a broad, general role in meeting the educational needs of the population, or embrace certain combinations of these approaches? What is the nature of the university's commitment to the community, to its members, to education? Should size and physical location influence the purpose of the university and the manner in which it is governed? How are the purposes of the institution related to its governance? What estates exist within the university to serve its purposes, how are they precisely defined, and what stakes does each have in institutional governance?

2. Governing Bodies - Senate and Board of Governors

What is your perception of the existing structure and its effectiveness? What changes (if any) should be made in the functions, powers and responsibilities of these bodies? How should they be constituted and selected? How should they relate and interact with each other? What structural alternatives (if any) would you recommend, and why? What would be the relationship between governing bodies and the President and/or other administrators? What committees should exist and what powers should they exercise?

3. Faculty, Students and Others

What should be the respective roles and responsibilities of individual faculty, students and others in university government? What parts should each play in governing bodies, committees, etc? Should representation of each in committees be fixed and uniform, or flexible according to purpose? Should any estate be deliberately excluded from official university bodies or committees? Should academic rank or tenure be taken into account in the holding of office on a governing body or committee, or in holding a franchise for election thereto? Should student 'seniority' be taken into account for the same purposes?

4. President, Vice-President Deans, Chairmen

What should be their roles and responsibilities in the university? What parts should they play in the decision-making processes? How should appointments be made? What relationships should exist between administrators and governing bodies, colleagues, academics, students, academic service staff, etc.? In short, how should the day-to-

day work of the university be determined and executed?

5. Student Councils, Faculty Associations and Other Groups

What should be the functions and responsibilities of these bodies vis-a-vis the governing bodies, the President and other administrators, their constituents? Should they play a more direct role in the structure of university government?

DEPARTMENT NEWS

Political Science

Dr. G. F. Engholm, Associate Professor and Chairman of the Department of Political Science, is attending the Annual Conference of the American Political Science Association in Los Angeles, September 8th to 12th where he will present a paper entitled "Representation and Policy".
