

Art & Literary Review

Dr. John Rosenman and Dr. Fayek Ishak of the Department of English are happy to announce the establishment of the *Art and Literary Review*, a semi-annual publication.

ART & LITERARY

REVIEW

VOL. 1: NO. 1.

FALL 1972.

The deadline for submissions to the second issue is February 9, 1973.

The first issue of the *Review* is now on sale for 75¢ at the University Bookstore, The Matchbox, the Confederation College Bookstore, Co-operative Bookstore on Algoma Street, and other locations in the city.

Senate Highlights

At the Senate meeting of Saturday, January 6, Dr. Andrew D. Booth, Chairman of Senate and President of the University announced that the Executive Committee of the Board of Governors had recently approved the following appointments. Mr. Bryan Mason, Executive Assistant to the President has been named Acting Vice-President Administration. His specific tasks will be to develop and implement a total information system throughout the administration, and to study and make recommendations regarding the re-structuring of the University's administration.

Mr. Grant Thompson, Comptroller for the University, has been named Vice-President Finance. His general duties will be to raise funds for the University.

Dr. John Hart, Professor of Physics, has been appointed Director of Continuing Education. His task will be to develop ways and means of improving the University's contribution to the community and the region of Northwestern Ontario.

Dr. Booth announced further, in a pessimistic vein, that the Ministry of Colleges and Universities predicts a decrease of 500 in first year admissions across the Ontario university system; and, optimistically, that the Ministry had recently indicated a small increase in the Basic Income Unit value for students in the Bachelor of Engineering Program for the 1973-74 academic year.

New courses, programs and arrangements received Senate approval. The new general degree endorsed at the previous meeting was formally named Bachelor of Arts (General Program) and Bachelor of Science (General Program). A new constitution for the Faculty of Education, presented by the Dean of Education, Dr. James T. Angus, was accepted by Senate. And the Faculty of Education's proposals for a Master of Education Program, with special emphasis in educational administration and curriculum development, was accepted as well.

Senate also endorsed the following part of the motion passed at the Fourth General Meeting of the Ontario Federation of Students:

"That OFS/FEO reaffirm its demands to the Government of Ontario, namely:

a) All tuition fee increases in post-secondary institutions for 1972-73 be deferred until full consultation has been held with affected groups, and, in particular that no increase be approved until full public discussions have been held on the Wright Commission Report.

b) Regulations governing the Ontario Student Awards Programme be amended to facilitate greater access to the programme; that the loan ceiling recently raised to \$800.00 be lowered to a maximum absolute level of \$600.00; that part-time students have access to the programme, that the age of independence be reduced.

And further, that the Government of Ontario clarify immediately its policy on the Ontario Student Awards Programme for the 1973-74 academic year".

Would You?

Believe it or not, a theatre group from Algoma College in Sault Ste. Marie, under the title of Theatre Algoma and the direction of Professor Robert d'Amato, will present *The Persecution and Assassination of Jean-Paul Marat as Performed by the Inmates of the Asylum of Charenton Under the Direction of the Marquis de Sade*. The act will be reconstructed in the University Centre Theatre on Saturday, January 13 at 8:00 p.m. Tickets for students are \$1.50; non-students \$2.50.

Austerity Reigns

According to an article appearing in the Thunder Bay Chronicle-Journal on Wednesday, January 3, 1973, the University of Western Ontario has developed an austerity program to reduce expenses of \$2 million from its \$50 million budget.

R.A. Gonder, assistant director of operations and maintenance announced that the physical plant department developed the program to reduce heat "to the lower edge of the comfort zone", to cut back on maintenance and to lower lighting potential in classrooms and corridors.

Snow removal in winter, and lawn maintenance in summer, will be reduced to the absolute minimum. Lights not necessary for study and classroom teaching will be turned off during the day, fixtures above basic needs will be disconnected, and random lightbulbs will be removed.

Employment Of New PhD's

Editor's Note: Following are excerpts from a release issued recently by the Canadian Association of Graduate Schools.

There have been recent reports of current large scale unemployment of persons holding Ph.D. degrees, as well as forecasts suggesting future employment difficulties. These speculations are not substantiated by the actual experience of recent doctoral graduates.

In 1969, the Ontario Council on Graduate Studies collected information about the first employment of all those who obtained Ph.D.'s in Ontario in the preceding five years. This information has been obtained each year since for each new Ph.D. and last year and this year was extended to cover all of Canada.

In most universities, information was collected when the student handed in his thesis to the graduate school. At that time, ninety-six (96) percent of the Ph.D.'s had jobs. Of the remaining four percent (shown as "unemployed" in the tables), some will since have obtained employment, some were not actively seeking employment, and some are no doubt unemployed. This is essentially no change from last year. In 1970-71 there were 1446 Ph.D. graduates in Canada of whom 72 did not have jobs when the thesis was turned in; for 1971-72 the corresponding figures are 1446 and 53.

It is important to ask what kind of jobs these new Ph.D.'s have taken. In summary, the pattern has

shifted only slightly from the boom years of the late sixties.

Most noticeable are decreases in university teaching and in industrial employment. In 1964-69, forty-eight percent had university teaching posts as their first employment; this year the figure was thirty-eight percent. Industrial employment of Ph.D.'s has never been as important a factor as one might hope. In the sixties it accounted for thirteen percent of the graduates; last year this number fell to nine percent. Also stable is the fraction obtaining postdoctoral research fellowships. These postdoctoral research years are a normal part of the career pattern for those preparing for careers in university or government science. One quarter of the new Ph.D.'s are still following this route just as they did in the 60's.

Series Announced

"The History and Culture of the Indians and Metis of Northwestern Ontario" is the topic of a nine week lecture series sponsored by Lakehead University Extension in co-operation with the Thunder Bay Indian Friendship Centre. Speakers are drawn from many walks of life and will be almost evenly divided between Indian and white communities.

For further information please contact Mr. K.L. Morrison, Director of Extension, at 345-2121, Extension 210.

Astronomical Globetrotter

The five-hundredth anniversary of the birth of the celebrated scientist and philosopher Nicolaus Copernicus was commemorated by meetings in Washington D.C. of the American Association for the Advancement of Science December 27-29. A second commemoration will be special meetings of the International Astronomical Union in Poland in September 1973. Together with the scientific sessions, visits will be made to Warsaw, Cracow, Torun and other locations connected with the life of Copernicus.

Dr. J.S. Griffith recently received an expenses paid invitation to the Washington meeting. Unfortunately it arrived too late for satisfactory travel arrangements to be made; however during the meetings in Poland, he will be reading a paper on necessary and sufficient conditions for escape, retention and capture in the n-body problem. On January 14 he will be in Houston for a three-day conference at NASA's Science Institute on Lunar Dynamical Studies. On the way back to Thunder Bay he will spend a day at the U.S. Naval Observatory.

Fellowships Continued

The Honourable Jack McNie, Minister of Colleges and Universities, announced today that the Ontario Graduate Fellowship Program will be continued for the 1973-74 academic year. The funding of the Program will remain at the current year's level of \$3 million.

The purpose of the present O.G.F. Program is "to encourage dedicated, superior students to enrol in graduate programs in our universities and so be better able to contribute to the cultural, scientific and economic growth of Canada."

The Fellowships are intended primarily for Canadian citizens who are residents of Ontario and will be awarded to both prospective and continuing graduate students. Up to 10% of new applications at each university may be awarded landed immigrants.

For fellowships tenable in the 1973-74 academic year, the deadline for submitting applications to university registrars or graduate schools is February 15, 1973. Application forms and folders giving details of the Program will be distributed early in January.

Research Policy Proposals

The report of the AUCC Commission on the Rationalization of University Research urges the universities to develop firm, coherent research policies, singling out objectives, in the sense of broad areas of research where they would like to concentrate their main efforts, and elaborating programs within these broad areas. The universities should not set particular research projects within these areas and programs; the individual researcher should be free to make his own choice.

The report emphasizes that the universities must set their research houses in order as a means of preserving their autonomy in the field of research and as a means of ensuring that the research activity they undertake fits reasonably well with their obligations to carry on effective undergraduate teaching and within the whole range of university purposes aside from research.

The commissioners caution that no university can settle the matter of its objectives entirely on its own. There must be ongoing, inter-university consultation to coordinate the university research effort.

The report emphasizes the distinction between frontier research and reflective inquiry. Frontier research is defined as exploration on the frontier of knowledge, looking for new facts, new phenomena. Reflective inquiry is essentially an intellectual activity which seeks the significance of facts and phenomena already discovered, and the relation of these to human interests or to a larger understanding of the world.

The commissioners urge a division of labour along these lines in recognition of the fact that some people are good at one or the other, while

only the very best are good at both. They believe frontier research is not always essential to undergraduate teaching, that in fact, it is sometimes in conflict with this activity. However, reflective inquiry is vital for teaching at all levels. The commissioners believe a distinction between the two would result in an improvement in the quality of teaching, particularly at the undergraduate level.

The commissioners say that teaching, and in particular undergraduate teaching, is the primary function of the university. Research could be done elsewhere but only the universities can transmit the knowledge and traditions inherited from the past.

The report states that basic research can be done most effectively in the universities and that these institutions should devote their principal research attention to this activity. However, they do not agree that applied research should be taken out of the universities; in fact there should probably be more of it."

New Deputy Minister

Premier William Davis has confirmed the appointment of Dr. J. Gordon Parr, Chairman of the Committee on University Affairs, as Deputy Minister of Colleges and Universities, to succeed Mr. H. Harold Walker, effective January 1, 1973.

Dr. Parr has served on the Committee on University Affairs for the past four years, becoming Chairman in January, 1971, when Dr. D. T. Wright the former Chairman, was appointed Deputy Provincial Secretary for Social Development.

Formerly Dean of Applied Science and Professor of Engineering Materials at the University of Windsor, Dr. Parr has spent twenty-four years in university teaching and research. He is author of a number of technical papers, a member of the editorial board of Science Forum, and a Fellow of the Royal Society of Canada. He was an active participant in the Science Council study group which produced the Macdonald Report on the Role of the Federal Government in Support of Research in Canadian Universities.

Mr. H. Harold Walker, the present Deputy Minister indicated to the Government early in September his wish to retire from the Public Service of Ontario. His distinguished career in public life has extended over 38 years, beginning in 1934 with the Department of Municipal Affairs. From 1939 to 1953, Mr. Walker was on the staff of the Department of Education, interrupting his career for service in Europe with the Royal Canadian Artillery during the Second World War. In 1953, he transferred to the Treasury Department where he served with distinction in many senior positions, becoming Deputy Minister of Revenue in 1967. A Fellow of the Institute of Chartered Accountants of Canada, Mr. Walker has been successively Secretary of the Treasury Board, Associate Deputy Treasurer, Deputy Minister of Revenue and from May, 1971 to the present, Deputy Minister of Colleges and Universities.

Lakehead University Athletic Department

WINTER SERVICE PROGRAM 1973

The Lakehead University Winter Athletic Service Program will begin Monday, January 15, 1973.

Registration will take place on Wednesday, January 10 and Thursday, January 11, from 7:00 p.m. to 10:00 p.m. in the C. J. Sanders Athletic Building. The Program is open to students and non-students and is on an instructional basis. Students will be required to show proper identification. All classes are on a first come - first served basis.

A highlight of the winter program is the utilization of the new Lakehead University pool for all swimming courses.

Skiing includes rentals and tow fees for five skiing dates at select Thunder Bay ski hills.

Further information can be obtained by calling the Service Program Coordinator Howard Lockhart at 345-2121, extension 650.

<u>COURSE</u>	<u>LOCATION</u>	<u>DAY</u>	<u>TIME</u>	<u>STARTING TIME</u>	<u>INSTRUCTOR</u>	<u>FEES</u>	
						<u>ST.</u>	<u>NON-ST.</u>
Folk Dance	Fac. of Ed.	Mon.	7:30 p.m.	Jan. 15	P. Rutherford	\$2	\$12
Golf	Ath. Bldg.	Wed.	9-11 p.m.	Jan. 17	I. McRae	\$2	\$12
Skiing	T.B.A.	Thurs.	Evening	Jan. 18	T.B. Ski School	\$19	\$19
Squash	Ath. Bldg.	Tues.	8-10 p.m.	Jan. 16	B. France	\$2	\$12
Fly Casting	Ath. Bldg.	Mon.	9-11 p.m.	Jan. 15	O. Grace	\$2	\$12

<u>COURSE</u>	<u>DAY(S)</u>	<u>TIME</u>	<u>STARTING DATE</u>	<u>INSTRUCTOR</u>	<u>FEES</u>	
					<u>STUDENT</u>	<u>NON-STUDENT</u>
Scuba Diving (NAUI)	Wed.-Sun.	9-11 p.m.	Jan. 17	Peter Stewart	\$40	\$50
Synchronized Swim	Mon.	9-11 p.m.	Jan. 15	Margaret Craig	\$ 2	\$12
Pre-Beginners	Mon.-Wed.	9-10 p.m.	Jan. 15	Genni Bernacki	\$ 2	\$12
Beginners						
Intermediate Royal Life	Mon.-Wed.	9-10 p.m.	Jan. 15	Harry Curtis	\$ 2	\$12
Red Cross Senior						
Junior Red Cross	Mon.-Wed.	9-10 p.m.	Jan. 15	Janice Eyjolfson	\$ 2	\$12
Bronze Cross	Mon.-Wed.	9-10 p.m.	Jan. 15	Ed Sandau	\$ 4	\$12
Award of Merit	Mon.-Wed.	9-10 p.m.	Jan. 15	Ed Sandau	\$ 4	\$12
Award of Distinction	Mon.-Wed.	9-10 p.m.	Jan. 15	Ed Sandau	\$ 5	\$12
Bronze Medallion	Mon.-Wed.	10-11 p.m.	Jan. 15	Maureen Philp	\$ 4	\$12
Intermediate Red Cross	Mon.-Wed.	10-11 p.m.	Jan. 15	Coralee Bishop	\$ 2	\$12
Elementary Royal Life						
Skin Diving	Wed.	9-11 p.m.	Jan. 17	Don Edwards	\$ 5	\$12
National Life Guard	Mon.-Wed.	10-11 p.m.	Jan. 15	Ron Hands	\$10	\$15
Leaders Program	Mon.-Wed.	9 p.m.	Jan. 15	Jane Cunningham	\$ 4	\$12
Stroke Improvement	Wed.	10-11 p.m.	Jan. 17	Staff	\$ 2	\$12
Mom and Me Swim	Tues.	2-3 p.m.	Jan. 16	Don Talbot	\$ 2	\$12

NOTE:

Scuba Diving includes all equipment except Fins, Mask, Snorkel
 Skin Diving - must provide own equipment - Fins, Mask, Snorkel
 Age Limit - 14 years and over for all courses
 Mom and Me Swim - for toddlers age 3 months to 3 years.

weekly events

meetings

Friday
January 12 —L.U. Hockey Team vs. Wisconsin State, P.A. Arena, 8 p.m.
—H.S. Sr. Basketball, P.A.C.I. vs. Selkirk, Fieldhouse, 7 p.m.
—H.S. Sr. Basketball, Westgate vs. Hillcrest, Fieldhouse, 8:30 p.m.

Saturday
January 13 —G.P.S.V. Volleyball Tournament, Fieldhouse
—L.U. Hockey Team vs. Wisconsin State, P.A. Arena, 8 p.m.

Sunday
January 14 —Chamber Music Concert, Faculty of Education Auditorium, 8:30 p.m.

Friday
January 19 —9:30 a.m. Molson Ski Day at Mount McKay - Buses from Agora
—9:30 a.m. Forestry Bike Race
—6:30 p.m. Basketball, Fieldhouse - L.U. Women vs. Un. of Man.
—8:30 p.m. Basketball, Fieldhouse - L.U. Men vs. Un. of Man.
—10:00 p.m. Torch Lite Parade from Fieldhouse to Main Cafeteria
—9:00 p.m. Forestry "Bushman's Brawl", *Moshmakon*, Main Cafeteria and Great Hall - Introduction to King and Queen Contestants.

Saturday
January 20 —9:00 p.m. Engineering and Regional Nurses Dance, *Moshmakon*

Sunday
January 21 —5:30 p.m. International Dinner, Main Cafeteria
—8:30 p.m. International Concert, Theatre

Monday
January 22 —8:00 a.m. Men's Hockey - Business vs. Arts - P.A. Arena
—9:00 a.m. Men's Hockey - Science vs. Education - P.A. Arena
—10:00 a.m. Men's Hockey - Forestry vs. Engineering - P.A. Arena
—11:00 a.m. Men's Hockey - Residence vs. B.P.H.E.
—Noon Women's Hockey - B.P.H.E. vs. Arts and Science
—1:00 p.m. Women's Hockey - B.P.H.E. 3 and 4 vs. Education
—Noon Chinese Tea Garden, Great Hall
—Noon L.U.N.A. Movie Day - "How To Succeed With Sex" and "A Man Called Horse".
—3:00 p.m. Geology Beer Garden, Main Cafeteria, '73 Mugs

Tuesday
January 23 —8:00 a.m. Women's Hockey - Nursing vs. Residence - P.A. Arena
—9:00 a.m. Women's Hockey - Winners of games 1 and 2
—11:30 a.m. Men's Hockey - Winners of games 1 and 2
—3:00 p.m. Men's Hockey - Winners of games 3 and 4
—8:00 p.m. Forestry Monster Bingo, Main Cafeteria, Prizes: Colour TV, Stereo, Cameras, Records, Cash

Wednesday
January 24 —Noon Tug-of-War on Lake - Forestry vs. The World
—Princess Pull on Lake
—3:00 p.m. B.P.H.E. and S.C.A. Spaghetti Supper and Beer Garden, Main Cafeteria, Basil McDonald at the Piano
—11:00 p.m. Men's Hockey Finals - P.A. Arena
—12:00 p.m. Women's Hockey Finals - P.A. Arena

Thursday
January 25 —8:00 p.m. 85% Quota Club Presents Howard Adams, Professor of the University of Saskatchewan and Head of the Saskatchewan Metis Society, Theatre
—8:00 p.m. Business Club Wine and Cheese, Main Cafeteria, Jerry Colasimo at the Organ
—9:00 p.m. Engineering Society Pool Party, Fieldhouse

Friday
January 26 —9:30 a.m. Molson Ski Day, Candy Mountain, Buses from Agora
—9:00 p.m. One Admission for Following Events:
Ukrainian Club "Hunky Nite in Canada", Rocky Albertini Orchestra, Bar and Dance, Main Cafeteria
French Club "French Cafe", Great Hall
Crowning of Carnival King and Queen

Monday
January 15 —Senate Committee on Continuing Studies, Senate Chamber 4:00 p.m.

Worthy Causes

Mr. Donald E. Ayre, Secretary of the University, as a representative of the United Appeal Campaign, reminds the University community that

gifts are still receivable for the 1972 - 73 fund drive. Donors to date number only 138, as opposed to 159 in the previous campaign. Total gifts this year are slightly more at \$7,450.70, as

compared to \$7,365.25 last year.

Mr. Ayre also announces that the Tim Ryan Scholarship Fund has reached \$4,521.50. A figure of at least \$5,000 is necessary to establish a scholarship which can be offered in perpetuity. The final date for receipt of monies for this fund is February 28, 1973.
