WILLIAM G. TAMBLYN
BASc, MComm, Hon. LLD,
Hon. DLitt

When the Lakehead University Act was put into effect in 1965, William Gordon Tamblyn had already taken an energetic part in the institution's affairs, serving on the Advisory Committee and as Chairman of the Board of Governors at the time the University existed as a technical institute.

William Gordon Tamblyn was born in Toronto on April 9, 1923. He was educated at Upper Canada College, and the University of Toronto, graduating with a Bachelor of Applied Science (Honours), and Master of Commerce (Business Administration). He has since been awarded the Doctor of Laws (Hon.) from Laurentian University (1966) and the Queen's Silver Jubilee (1979) Medal. Dr. Tamblyn was awarded a Doctor of Letters (Hon.) by the University in May, 1981.

Dr. Tamblyn married Marguerite McCavour of Fort William, in 1945, and the couple spent a year in China, where Dr. Tamblyn was an administrator for the Church of England missions in Honan Province. He then returned to Canada to join the Engineering Department of the Great Lakes Paper Company, first as Design Engineer, and later as Assistant Chief Engineer. In 1955, he became Chief Engineer for the Mills Steel Construction Company; in 1962 he became President and principal shareholder of Mills and four subsidiary companies in the construction field.

Always active in community affairs, Dr. Tamblyn was Chairman of the Fort William Board of Education, President of the Lakehead Chamber of Commerce, and President of the Lakehead Builders' Exchange. He took a deep interest in the Lakehead Technical Institute as it progressed from an institute to a college, to a university. He was appointed to the Advisory Committee of the Institute in 1953, and after serving continuously as a director, was elected Chairman of the Board of Governors of the Lakehead College of Arts, Science and Technology in 1963.

Much of the institution's rapid expansion over that significant ten-year period, 1953 through 1963, can be attributed to the foresight, interest, and energy of William Gordon Tamblyn.
