TWENTY-SIXTH ANNUAL CONVOCATION FOR THE CONFERRING OF DEGREES AND DIPLOMAS

*The Chancellor welcomes graduates, members of the Lakehead
University Alumni Association, faculty and guests to the
CHANCELLOR'S LUNCHEON to be held in the Main and
Residence Cafeterias, Lakehead University, at eleven-thirty
o'clock for twelve o'clock noon.*

DEREK BURNEY

Canadian Ambassador to the United States

Derek Burney was born in Fort William, Ontario and received his public and secondary education locally. He later attended Queen's University and received an H.B.A. and M.A. in Political Science before joining External Affairs as a Foreign Service Officer in 1963.

In 1965, Mr. Burney was posted to Wellington, New Zealand, and was transferred later that year to the Embassy in Tokyo. During his stay in Japan he took extensive language training and subsequently became Counsellor for Political Affairs at the Embassy.

He returned to headquarters in 1972 to serve as head of the Officer Assignment Section in Personnel. In 1975, he was appointed Director of the Pacific and Northeast Asia Division. The next year he became Senior Departmental Assistant to the Secretary of State for External Affairs, serving concurrently as Official Spokesman for that department.

He has served as Ambassador to Korea; Administrator for the Ottawa Summit hosted by Canada in 1981; Agenda Coordinator for the Quebec Summit Meeting in 1985; and other prominent posts, including Chief of Staff to Prime Minister Mulroney. In January 1989, Mr. Burney became Canada's fifteenth Ambassador to the United States. He has since been named the Prime Minister's personal representative for the Economic Summit which will be held later this year in the United States.

Mr. Burney is married to the former Joan Peden and the couple has four sons.

JEANNE LeCAINE AGNEW

Canadian Educator

Jeanne LeCaine Agnew was born in Port Arthur and received her primary and secondary education in local schools. Dr. Agnew fondly remembers her teachers from that period as excellent friends and valuable role models.

Subsequently, she received her B.A. (1937) and M.A. (1938) from Queen's University and her Ph.D. (1941) from Harvard University. Dr. Agnew believes that the successful completion of her graduate degrees would have been impossible without the financial assistance provided by Canadian scholarships and fellowships.

During World War II, Dr. Agnew served for three years as part of the Canadian branch of the atomic research effort. This experience aided her in the practical application of mathematics.

Dr. Agnew's professional goal has always been to be an educator. This has been achieved during her teaching career, most of which was spent at Oklahoma State University (1948-1984) as a Professor of Mathematics. She has been the recipient of numerous teaching awards, successfully supervised eighteen doctoral theses in number theory, and has published many articles and books in her fields of expertise.

In response to the growing needs of industry and the expansion of computers, Dr. Agnew and several colleagues pioneered in the area of Experiential Applied Mathematics. Funded by grants from the National Science Foundation, students were able to combine their ideas and engage in analytical thinking to solve problems that exist in real life. The most recent project, completed in 1990, produced nine learning models intended for use in high schools.

It should be recognized that during some of her summers in Thunder Bay, Dr. Agnew voluntarily helped many Lakehead University students experiencing difficulties in mathematics.

Dr. Agnew and her husband have two daughters and three sons.

JOHN KIM BELL

Musician and Conductor

John Kim Bell, a Mohawk Indian, was born on the Kahnawake Reserve near Montreal. Showing an early talent in music, he began piano lessons at the age of eight and violin lessons two years later. The family moved to Columbus, Ohio where he was soon appearing on local television.

Mr. Bell's professional career started during his high school years. He accompanied local singers auditioning for roles in a Broadway musical which was embarking on a national tour. Although only seventeen, his musical abilities prompted the Producer to name Mr. Bell an assistant conductor of the company.

The following year, Mr. Bell accepted the invitation to conduct the national tour and thus became the youngest professional conductor in North America. During this time, he attended Ohio State University on scholarships and graduated in 1975 with a Bachelor of Music degree.

Mr. Bell continued to study piano while conducting over thirty American national tours and Broadway musicals. He worked with stars such as Lauren Bacall, Carole Lawrence, Natalia Makarova, Juliet Prowse, and Vincent Price. He also served as conductor/pianist for the Redd Foxx Show, the Sonny Bono Show, and the Bee Gees.

His success both at home and abroad became the subject of a CBC documentary film profiling his life as the first North American Indian to become a symphonic conductor. Mr. Bell later received inquiries from Natives on reserves with respect to education and professional training in the arts. Due to this response, he founded the Canadian Native Arts Foundation which provides professional development opportunities for Native youth in the arts. Mr. Bell now serves as president of this extremely successful organization which has become a model for the development of other emerging groups for performing artists.

Mr. Bell's major triumph for 1988 was the production of the first full-scale Native contemporary ballet entitled "In the Land of Sprits". His career continues to soar with his involvement in the arts as conductor, writer and producer.

HECTOR FRASER DOUGALL, JR.

Broadcaster

Hector Fraser Dougall Jr. was born in Port Arthur in 1942 and attended Thunder Bay schools to Grade 8. He then attended St. John's Ravenscourt in Winnipeg to Grade 12 during which time he was a member of the Queen's Own Cameron Highlanders. Mr. Dougall received his Bachelor of Arts degree from St. John's College of the University of Manitoba. He has subsequently studied courses at the University of Western Ontario, York University, and Harvard University.

A broadcaster by profession, Mr. Dougall has had a successful media career extending over thirty years. He is presently President of H. F. Dougall Company Limited, as well as President of Amethyst Holdings Limited and Thunder Bay Media Productions Limited. In addition to many radio and television holdings, he has been a successful entrepreneur in restaurant operations.

Mr. Dougall has served as a member of the Board of Governors of Lakehead University from 1967 through 1983 and as Chairman of the Board from 1981 through 1983. His volunteer associations are numerous and include active participation in the Salvation Army Red Shield Appeal, the Ontario Economic Council, the Board of Minaki Lodge, the Port Arthur Rotary Club and the Gyro Club. He has been the winner of many local, provincial and national awards including being named as one of five Outstanding Young Canadians in 1972.

His hobbies include travel, boating and fishing, playing hockey, jogging and weight training, gardening, and playing tennis.

Mr. Dougall is married to the former Elizabeth Burton and the couple has two sons and one daughter.

FOR THE CONFERRING OF DEGREES AND DIPLOMAS**

WILLIAM S. FYFE

International Environmentalist

William S. Fyfe was born and educated in New Zealand receiving his B.Sc., M.Sc., and Ph.D. degrees from the University of Otago. Specializing in Earth Sciences, Dr. Fyfe has taught at a number of universities including the University of California, Berkeley; University of Otago; and Imperial College, London. In 1972, Dr. Fyfe joined the faculty at the University of Western Ontario and, in 1986, became Dean of the Faculty of Science.

Dr. Fyfe has been the recipient of numerous awards such as membership as a Fellow of the Royal Society of London (UK) and twice receiving a Guggenheim Fellowship.

At the forefront of Earth Sciences for the past forty years, Dr. Fyfe's extensive work reflects his deep interests in world-wide conservation and preservation of the environment. He has conducted field studies in many countries including Mexico, Brazil, Chile, Argentina, East Africa, Madagascar, Thailand, India, and Nigeria. In particular, he has returned to Brazil five times.

In the 1980's, Dr. Fyfe was an initiator of the International Global Change Program. This project was designed to explore the unique conditions of life on our planet as well as the human influence on the interactions maintaining these conditions. In 1989, he was awarded the Companion of the Order of Canada for his efforts on behalf of this international environmental program.

Dr. Fyfe is renowned for his style and enthusiasm in communicating scientific knowledge. His legacy is evident in the scores of international scientists who are former graduate students.

ARTHUR CHARLES ERICKSON

Architect

Arthur Charles Erickson was born in Vancouver, British Columbia where he began his post-secondary education at the University of British Columbia. Although World War II interrupted his formal education in Canada, Mr. Erickson attended a Japanese language school, a learning experience that would add a new dimension to his life. Immediately after the war, he continued his education at McGill University receiving his Bachelor of Architecture with Honours and winning among other awards, the Lieutenant-Governor's Bronze Medal.

Mr. Erickson's military service included overseas duty in India, Ceylon, and Malaysia. He was also a Captain in the Canadian Intelligence Corps.

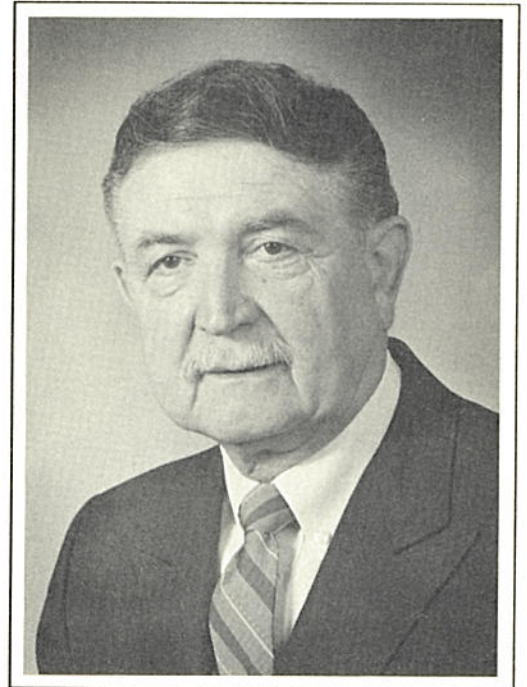

Mr. Erickson first became enthralled with architecture after reading an article in FORTUNE magazine on Frank Lloyd Wright's Taliesin West. He has designed many outstanding projects including the Courthouse and Provincial Offices in Vancouver, the Canadian Pavilion at Expo 70 in Osaka, Simon Fraser University, University of Lethbridge, the Canadian Embassy in Washington and the Ministry of Colleges and Universities building under construction in Thunder Bay.

Perhaps the citation for the 1986 Gold Medal from the American Institute of Architects best summarizes this phenomenal Canadian: "Global architect, passionate advocate of cultural awareness, and fervent explorer of human and natural environments, whose buildings, though remarkably diverse, share deep respect for context, in comparable freshness and grace, and the dramatic use of space and light."

G. SYDNEY HALTER

BSc (Eng), F.E.I.C., PEng

Consulting Engineer

G. Sydney Halter was born and educated in Thunder Bay and received his Electrical Engineering degree from the University of Manitoba in 1946.

Mr. Halter joined the C. D. Howe Company following his graduation and progressed through the ranks from a design engineer to become President and Chief Engineer of C. D. Howe Central Ltd. and Senior Vice-President and Director of all of the C. D. Howe Group of Companies including its overseas branches. He took early retirement in 1989 and is now a consulting engineer in private practice.

His main fields of expertise involve dock and harbour installations and bulk material handling in virtually every port in Canada as well as some overseas.

In addition, Mr. Halter has been involved in many volunteer activities including Past-Chairman of the Board of Governors of Lakehead University where he served for fifteen years; Past-President of the Board of Governors of McKellar General Hospital; Past-President of the Consulting Engineers of Ontario; and Past-Director of the Thunder Bay Chamber of Commerce as well as Past-Director of the Ontario Chamber of Commerce.

Mr. Halter has been twice honoured by the Association of Professional Engineers of Ontario for outstanding service to his profession. He received the distinction of Fellow of the Engineering Institute of Canada in 1987 in recognition of his excellence in engineering and for services rendered to his profession and society.

He has written and published papers as well as lectured in his fields of expertise. His leisure time activities include enjoying his summer cottage at Silver Islet, stamp collecting, and star-gazing.

Mr. Halter is married and has three daughters and six grandchildren.

O CANADA

O Canada! Our home and native land,
True patriot love in all thy sons command.
With glowing hearts we see thee rise,
The true north strong and free!
From far and wide, O Canada,
We stand on guard for thee,
God keep our land glorious and free!
O Canada we stand on guard for thee,
O Canada we stand on guard for thee.
