**THIRTY SECOND
CONVOCATION**
1996

Lakehead University

Convocation 1996

Saturday, May 25, 1996 marks Lakehead University's thirty second annual convocation for the conferring of degrees and diplomas. The word "convocation" means "calling together". It is a ceremonial meeting of the entire university community. On Convocation Day university members and their guests wear special attire based on a tradition that dates back as long as seven centuries ago. The academic costume, also referred to as academic "dress" or "regalia", had its origins in the ancient European universities. The regalia was devised to distinguish academic persons such as doctors, licentiates, masters and bachelors. In the middle ages they were worn as everyday attire. Gowns were a necessity because of unheated buildings and hoods were needed to cover the heads of medieval scholars.

There are many variations of academic dress. The hood, gown and in some cases the special hat (mortarboard) worn by an individual is determined by the style of the university where he or she received a degree. The colourful gowns and hoods of universities from across Canada, the United States, the United Kingdom and several other nations of the world are worn here today.

The academic dress chosen by Lakehead University is fashioned after that of the University of Oxford, the oldest English-speaking university in the world. The robes worn by the officers of the university - the Chancellor, who presides at convocation, the President (who is also the Vice-Chancellor) and the Chair of the Board of Governors - are all of the Oxford cut and trim. Each has its own distinctive colour. The colourful gowns worn by the individuals who are receiving honorary degrees are of the same design as are the black gowns worn by the student candidates. The ritual at convocation reflects the medieval custom that anyone in a university could wear a gown, but a hood was the symbol of a degree. Students who have met the university's academic requirements (three, four or five years of study in particular subjects) wear the symbol of their status as holders of a Lakehead University degree. Lakehead University's bachelor's and master's degree hoods are distinguished by a one or two inch colour border which indicates the degree

acquired eg. white for Arts, drab for Commerce, blue for Education, burgundy for Nursing etc.

In addition to "earned" degrees, the university confers "honorary" degrees which symbolize the highest honour that can be conferred on an individual by the university. An honorary degree may be awarded in recognition of scholarly or creative attainments or distinguished public service to the country or region. They go to individuals who have been designated by the University's Senate, its senior academic governing body, as deserving special honour. At convocation the degree is awarded *honoris causa*, or "in the cause of honour". A hood is also given to the recipient and it may be worn to any academic affair. Recipients of these degrees become honorary alumni of the University and they may affix, after their names, the abbreviation of the degree. Six honorary degrees, the Doctor of Letters, the Doctor of Laws, the Doctor of Engineering, the Doctor of Science, the Doctor of Social Work, and the Doctor of Commerce will be conferred in today's ceremonies.

The Board of Governors of the university also recognizes individuals who have contributed to the growth, development, welfare and well-being of Northwestern Ontario and of Lakehead University. This is done by the conferring of the title Fellow of the University. You will recognize university Fellows by their familiar blue gown with white velvet epitoge or scarf.

During the processional and the recession the Marshal for convocation carries the Mace, a silver wand which is a traditional symbol of the university's authority. This mace was given to the university by the Alumni Association in 1971. It bears the university's motto *Ad augusta per angusta*, Achievement through Effort.

Today the university community celebrates its thirty second annual convocation. Its members dress in clothes which are symbolic, not functional, and go through a centuries old ritual for the conferrment of degrees and diplomas. We thank you for being present to share this special event with us.

Photographs- Those wishing to take pictures of the graduates are most welcome to come forward to the left and right of the stage. To avoid congestion of that area, please wait until your particular graduate is ready to receive his or her degree before you come forward.

LOUIS DUDEK

Poet, Author and Teacher

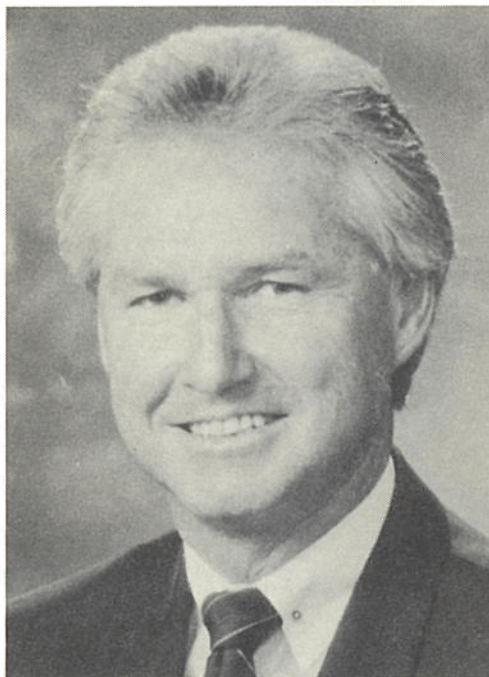

Louis Dudek was born in Montreal in 1918. He grew up in a large extended family with strong maternal influences. Louis' first introduction to poetry was through a Polish aunt who cared for him and his siblings following the death of their mother. She would recite Polish poems that sparked a creative flame in Louis. Mr. Dudek was educated in Montreal and writes of his early years at school and the frustration he felt with a system that bred conformity by slotting children based on ethnic or religious background. When he entered McGill in 1936 Mr. Dudek saw the door to his intellectual freedom and personal development open. Exposed to new political and social ideologies, Louis joined a literary group in 1942 which he himself describes as a "second wave of modern poetry" challenging the current culture of poetry in Canada.

He completed a Doctorate in English and Comparative Literature at Columbia University and returned to Montreal in 1951 to teach at McGill University. To this position, he brought enthusiasm and innovation. He was committed to enlightening his students on the development of modernism which was taking place in Europe, but which had only begun to germinate in Canada. Mr. Dudek and his colleagues initiated small press publishing in Canada, producing literary journals, magazines and books which gave greater exposure to some of Canada's most promising poets, including Margaret Atwood and Leonard Cohen. In 1965, he established Delta Canada, a small publishing company through which approximately 32 titles were published between 1965-71 including Dudek's own Collected Poetry in 1971. Through Mr. Dudek's efforts, the small press phenomenon spread throughout Canada sustaining a literary minority that might otherwise have perished.

Louis Dudek's published credits include numerous poems, articles, literary criticisms and radio broadcasts. He is a member of the Order of Canada.

LORNE G. EVERETT

Scientist

Lorne Everett graduated from Lakehead University in 1968 with an Honours Bachelor of Science degree in Biology. He received his Masters and Ph.D. (Hydrology) degrees from the University of Arizona. Dr. Everett is an internationally recognized expert on hazardous waste and groundwater monitoring. He has conducted turn key monitoring programs at numerous solid waste landfills and hazardous waste disposal sites. His innovative technologies have been patented and his expertise sought after by numerous organizations around the world. Lorne is the Chief Research Hydrologist and Vice President of the Heidemij Corporation, the largest engineering firm in Europe. He is also research Professor and Director of the Vadose Monitoring Laboratory at the University of California in Santa Barbara where he makes his home.

During more than 25 years of distinguished work in his "waterworld", one of his most exciting projects was with a team of international water experts in developing a world groundwater map for the United Nations. He chaired a panel of nine national experts in water, hazardous waste and geoscience disciplines who were appointed to evaluate the problem of radioactive waste migration from the land surface to the water table. This undertaking was considered the largest hydrogeologic testing project ever undertaken in the United States. Dr. Everett is the author of 11 books and 130 professional papers, many considered among the classics in the groundwater industry. His book, entitled *Groundwater Monitoring*, has been recommended by the World Health Organization for all developing countries. His distinguished career has taken him around the world as advisor, trainer, editor and chief scientist, as well as to the witness stand as an expert in contamination cases.

Lorne received Lakehead University's Distinguished Alumni Honour Award in 1989. In 1995 he was elected to the Russian Academy of Sciences, a prestigious honour that has been bestowed on only 8 non Russian Nationals. He and his wife, Sally, live in Santa Barbara with their 2 children.

LENORE UNTINEN

Women's Advocate

For the past twenty years, Leni Untinen, a fifth generation Thunder Bay resident, has directed her attention to women's issues. She has worked in conjunction with a number of other women to advance women's access to health services, education, training and employment.

Leni's efforts have concentrated on the elimination of violence against women and children. She has worked in concert with women across Canada from Corner Brook, Newfoundland to Vancouver, British Columbia. Her commitment to the prevention of family violence is evidenced by her appointments as past Chair and Board member of Crisis Homes Incorporated, sponsors of Faye Peterson Transition House, and Executive Member of the Ontario Association of Interval and Transition Houses. Ms. Untinen has also acted as staff and board trainer for Transition Houses and Family Resources Centres throughout Northern Ontario, and has taught courses in Family Violence Education at Confederation College.

Leni is presently the Co-ordinator for the Northwestern Ontario Women's Decade Council. She has also served as a Board Member of the Thunder Bay District Board of Health, Thunder Bay Ventures, Thunder Bay Police Employment Equity Committee and Lakehead University's Women's Studies Advisory Committee.

Leni and her husband Arnold have two sons and two granddaughters. She enjoys flower gardening, fishing and is busy recording a pictorial history of her family.

MAE KATT

Health Director

Mae Katt will be familiar to many staff and faculty at Lakehead University.

Mae first came to Lakehead University as a post-RN nursing student from Confederation College. She graduated with an Honours Bachelor of Science Nursing degree in 1986, and was a recipient of the President's Award that year. For the next four years, she worked at Lakehead University as Program Coordinator of the Native Nurses Entry Program. Her responsibilities included curriculum development and implementation, as well as liaison with First Nations organizations. She continued her studies at Lakehead University, completing a Master of Education degree in 1995.

Mae Katt has been instrumental in representing the health care concerns of Northwestern Ontario's First Nations people. Her specific areas of involvement include health policy development, health education and teaching, and mental health issues. As a Consultant and Policy Analyst she has advised Chiefs of the Nishnawbe-Aski Nation on the development of health care programs. She has co-authored a number of papers, reports and a book that focus on health care issues of Northern Canadian Communities.

Mae is currently Health Director of the Nishnawbe-Aski Nation in which capacity she is responsible for the development of community based programs, training and political strategies to address the youth suicide crisis. She has also served as a Councillor of the Temagami First Nation from 1993 to 1995, and from 1994 to 1995, sat as Second Chief of the Tribal Government. During her tenure in this role, she was successful in negotiating a land claim Agreement-in-Principle with the Government of Ontario.

CONVOCATION

Saturday, May 25, 1996

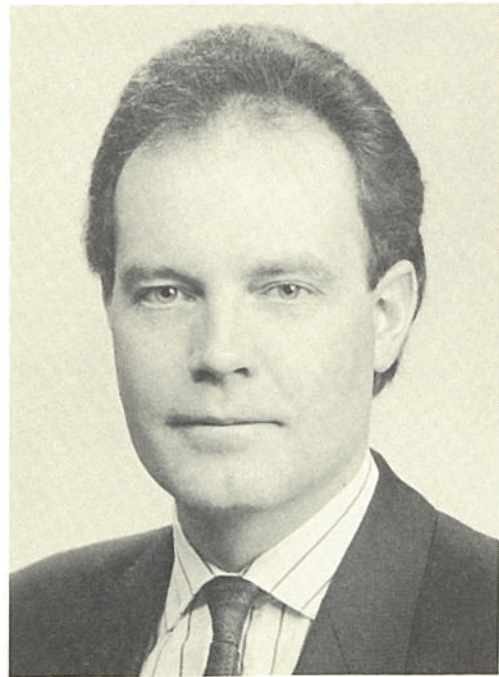

Thunder Bay Community Auditorium

**Afternoon Ceremony -- 2:30 p.m. for the Granting
of Degrees and Diplomas**

**THIRTY SECOND ANNUAL CONVOCATION
FOR THE CONFERRING OF DEGREES AND DIPLOMAS**

ROBERT PATERSON

Local Businessman

Robert Paterson was born in Fort William, Ontario in 1951. He received his early education in Thunder Bay and at Ashbury College in Ottawa. He later attended Lakehead University and McGill University in Montreal.

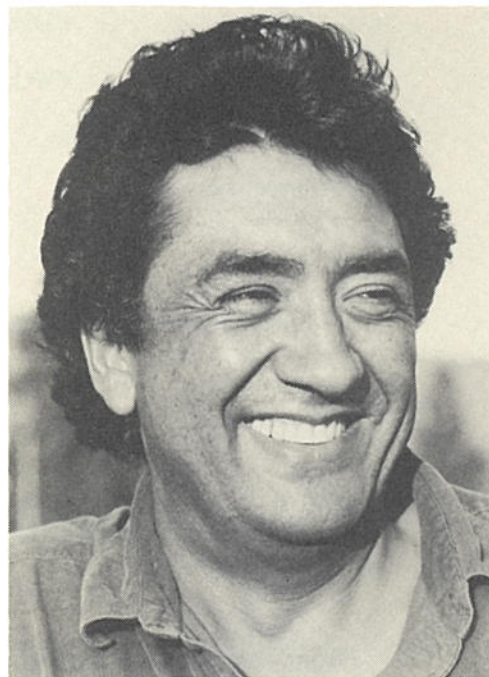

The Paterson name is a familiar one in the City of Thunder Bay, perhaps best known for its shipping operations. Rob Paterson joined the family business, N.M. Paterson & Sons Limited, in 1971 and is currently its Director as well as the Chief Executive Officer of the company's Marine Division.

Rob Paterson has witnessed from a young age the economic transition of Thunder Bay. This first-hand experience combined with his commitment to the region has made him a valuable spokesman for the regional development of Thunder Bay and surrounding area. Rob has reinforced, at all levels of government, the importance and ability of this traditional port city to remain a viable centre of Canadian commerce and trade.

Lakehead University is one of several beneficiaries of Mr. Paterson's community commitments. He served on the Board of Governors from 1983 to 1994, as Chair from 1990-1992, in addition to participating in many activities of the Alumni Association. Rob has also held directorships in the Thunder Bay St. John Ambulance Brigade, the Order of St. Lazarus, the Thunder Bay Commandery and the Senator Norman M. Paterson Foundation. He has most recently been honored for his work with the Lung Association as Chairman of the 1995-96 Christmas Seal Campaign.

MELVIN F. PERVAIS

Engineer and Entrepreneur

Melvin Pervais was born and raised on the Fort William Reserve near Thunder Bay, Ontario. His life is an amazing journey from Northwestern Ontario where he cut pulpwood as a boy to a self-made businessman of international stature who retired at the age of 45. The eldest son of 10 children, he left a one-room schoolhouse at age 11 to attend a residential school 500 miles away from home. At 15 he began his apprenticeship as an instrument technician with Noranda Mines in Cutler, Ontario. During the next 18 years Mr. Pervais worked for various companies including Mahon Electric in Fort William, H.A. Simons Limited in Vancouver and Mercury Company in Massachusetts. He became project manager at Johnson Controls in Philadelphia, Pennsylvania in 1973.

In 1976, with only \$10,000 and a fierce determination to start his own business, Mel founded Cataract Incorporated, a company that provided startup engineering services to nuclear power plants. When he sold the firm in 1984 it had 500 engineers on staff and reported annual sales of \$50 million. During a brief retirement, Mr. Pervais bought and operated a horse breeding and cattle operation on the historic 1,400 acre Chief Joseph Ranch near Darby, Montana. Lured back to business in 1991, he founded Rhodium 2001, a company that reclaims precious materials from scrap catalytic converters.

Mel travels extensively for business but always takes time to speak about his entrepreneurial beliefs and the importance of his Ojibwe heritage, especially to young people. His message invariably centres on 'never giving up'.

Mel Pervais is the father of six children. He maintains close contact with his family and friends in Northwestern Ontario. Last year he received an honorary Doctorate of Engineering from Montana State University who cited him "as perhaps the most successful Native American entrepreneur in the nation". In his own words, "not bad for a kid from the reserve". Melvin is an inspiration and a role model to us all.

RONALD RISTIMAKI

Businessman and Entrepreneur

Ronald Ristimaki was born in Port Arthur, Ontario, in 1934 and received his education at St. James Public School and Port Arthur Collegiate Institute.

After working a short time at Cold Stream Copper Mine in Kashabowie, Mr. Ristimaki began his career as a very successful entrepreneur. Among his first enterprises was a trucking business hauling gravel in Northwestern Ontario. In 1961 he moved to Houghton, Michigan to go into the tourism business. Four years later, Ron returned to Canada and started a sign production company, following which he joined Auto Haulaway Limited, an automobile transportation company based in Oakville, Ontario.

In 1981 Ron Ristimaki and John Bruchal purchased the company and in 1986 Ron became Chairman of the Board and majority shareholder. Under his leadership, Auto Haulaway Incorporated grew to become North America's fourth largest automotive transporter with 1800 employees, 960 trucks and 22 terminals across Canada handling in excess of 2 million automobiles annually.

Mr. Ristimaki was a Director of the Motor Transport Industrial Relations Board and was responsible for all union negotiations across Canada involving automobile transport. He was also Chief Executive Officer of a number of companies including Auto Transportation Holdings, Auto Haulaway Incorporated, Auto Haulaway Releasing Limited, Industrial Task Force Limited and Switching Services Limited. Ron enjoys boating and fishing. In 1993, the International Billfish Foundation awarded him the Top Angler in the Blue Marlin category.

Mr. Ristimaki has two daughters and seven grandchildren. He now resides for six months in Florida and six months in Canada and the Caribbean. With family still living in Thunder Bay he continues to maintain his roots in Northwestern Ontario.
