Lakehead University Convocation 2012

Lakehead University's forty-eighth convocation for the conferring of degrees and diplomas is being celebrated on Friday, June 1, 2012 and Saturday, June 2, 2012 at our Thunder Bay campus and Saturday, June 9, 2012, at our Orillia campus.

The word "convocation" means "calling together." It is a ceremonial meeting of the entire University community. On Convocation Day, University members and their guests wear special attire based on a tradition that dates back as long as seven centuries ago. The academic costume, also referred to as academic "dress" or "regalia," had its origins in the ancient European universities. The regalia was devised to distinguish academic persons such as doctors, licentiates, masters, and bachelors. In the middle ages they were worn as everyday attire. Gowns were a necessity because of unheated buildings, and hoods were needed to cover the heads of medieval scholars.

There are many variations of academic dress. The hood, gown, and in some cases the special hat worn by an individual are determined by the style of the university where he or she received a degree. The colourful gowns and hoods of universities from across Canada, the United States, the United Kingdom, and several other nations of the world are worn at Lakehead University today.

The academic dress chosen by Lakehead University is fashioned after that of the University of Oxford, the oldest English-speaking university in the world. The robes worn by the officers of the University – the Chancellor, who presides at convocation, the President (who is also the Vice-Chancellor) and the Chair of the Board of Governors – are all of the Oxford cut and trim. Each has its own distinctive colour. The colourful gowns worn by the individuals who are receiving honorary degrees are of the same design as are the black gowns worn by the student candidates. The ritual at convocation reflects the medieval custom that anyone in a university could wear a gown, but a hood was the symbol of a degree. Students who have met the University's academic requirements (three, four, five, six or seven years of study in particular subjects) wear the symbol of their status as holders of a Lakehead University degree. Lakehead University's bachelor's and master's degree hoods are distinguished by a one or two inch colour

border which indicates the degree acquired, e.g. white for Arts, blue for Education, green for Forestry, burgundy for Nursing, etc. Lakehead's first PhD degree was conferred in 1998.

In addition to "earned" degrees, the University confers "honorary" degrees which symbolize the highest honour that can be conferred on an individual by the University. An honorary degree may be awarded in recognition of scholarly or creative achievements or distinguished public service to the country or region. They go to individuals who have been designated by the University's Senate, its senior academic governing body, as deserving special honour. At convocation the degree is awarded *honoris causa*, or "for the sake of honour." A hood is also given to the recipient and it may be worn to any academic affair. Recipients of these degrees become honorary alumni of the University and they may affix, after their names, the abbreviation of the degree. The Doctor of Science, and Doctor of Laws, will be conferred this year.

The Board of Governors of the University also recognizes individuals who have contributed to the growth, development, welfare, and well-being of Northwestern Ontario and of Lakehead University. This is done by the conferring of the title Fellow of the University. You will recognize University Fellows by their familiar blue gown with white velvet epitoge or scarf.

During the processional and the recession the Marshal for convocation carries the Mace, a silver wand which is a traditional symbol of the University's authority. This mace was given to the University by the Alumni Association in 1971. It bears the university's motto *Ad augusta per angusta*, Achievement through Effort.

As Lakehead University celebrates its forty-eighth convocation with students, parents, friends, and community, it is worthwhile to remember that convocation participants dress in clothes which are symbolic, not functional. They go through a centuries-old ritual for the conferment of degrees and diplomas – a milestone in the lives of our graduates. We thank you for being present to share this special event with us.

Photographs – Those wishing to take pictures of the graduates are most welcome to come forward to the left and right of the stage. To avoid congestion of the areas, please wait until your particular graduate is ready to cross the stage before you come forward.

FORTY-EIGHTH ANNUAL
CONVOCATION
FOR THE CONFERRING
OF DEGREES AND DIPLOMAS

James Orbinski

DOCTOR OF SCIENCE

Dr. Orbinski is Chair of Global Health at the Dalla Lana School of Public Health, and professor of Family and Community Medicine, and Political Science, at the University of Toronto. He is a globally recognized humanitarian practitioner and advocate, and a leading scholar and scientist in global health. He believes in humanitarianism, in citizenship, and in actively engaging and shaping the world, so that it is more humane, fair, and just.

After field experience with Médecins Sans Frontières / Doctors Without Borders (MSF), Dr. Orbinski was elected MSF's international president from 1998 to 2001. He launched its Access to Essential Medicines Campaign in 1999, and in that same year accepted the Nobel Peace Prize awarded to MSF for its pioneering approach to medical humanitarianism.

Dr. Orbinski was MSF's Head of Mission in Kigali during the Rwandan genocide of 1994, and in Goma, Zaire, in 1996–97, during the refugee crisis. For his leadership in Rwanda, he was awarded the Meritorious Service Cross, Canada's highest civilian award.

From 2001 to 2004, Dr. Orbinski co-chaired MSF's Neglected Diseases Working Group, which created and launched the Drugs for Neglected Diseases Initiative (DNDi). In 2004, he co-founded Dignitas International, an academic NGO for community-based care, prevention, and treatment for people living with HIV in the developing world.

Dr. Orbinski is part of a team of scholars that has launched a multidisciplinary PhD training program in global health. A Senior Fellow at the University of Toronto's Massey College and at the Munk School of Global Affairs, he works with scholars, policy specialists, and civil society actors, developing a Global Health Diplomacy program. He received his MD degree from McMaster University in 1990, and held a Medical Research Council of Canada fellowship to study paediatric HIV in Sub-Saharan Africa. He completed a Masters degree in international relations at University of Toronto in 1998.

Dr. Orbinski is a founding board member of the Global Alliance for TB Drug Development, and the Stephen Lewis Foundation and Canadian Doctors for Medicare. He is a founding member of the editorial boards of Open Medicine and Conflict and Health, and sits on the editorial board of Ars Medica. He is an invited member of the Climate Change and Health Council, and of the Davos World Economic Forum's Global Agenda Council on Health Care Systems and Cooperation. He was an invited member to the Canadian Academy of Health Sciences 2011 Expert Panel on Canada's Strategic Role in Global Health.

His award-winning and internationally acclaimed documentary film, *Triage*, won the 2008 Amnesty International Gold Medal Award. His best-selling book, *An Imperfect Offering: Humanitarianism in the 21st Century*, won the 2009 Writer's Trust Shaunnassy-Cohen Prize for best political writing in Canada.

Dr. Orbinski is a member of the Order of Ontario, an Officer of the Order of Canada, and recipient of the Walter S. Tarnopolsky Human Rights Award.

Dr. Orbinski lives in Toronto with his wife and their three children.

The Right Honourable Beverley McLachlin, P.C.
Chief Justice of Canada
DOCTOR OF LAWS

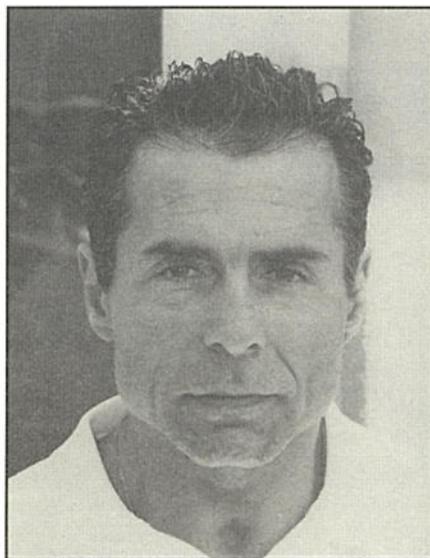

Chief Justice McLachlin spent her formative years in Pincher Creek, Alberta, and was educated at the University of Alberta, where she received a BA (Honours) in Philosophy in 1965. She pursued her studies at the University of Alberta and, in 1968, received both an MA in Philosophy and an LLB.

Her distinguished career began in Western Canada, where she articulated with Wood, Moir, Hyde and Ross in Edmonton, and was called to the Alberta Bar in 1969. After practising law in Edmonton for a short time, she spent one year in Fort St. John before moving to Vancouver to practise with Bull, Housser and Tupper. Commencing in 1974, she taught for seven years in the Faculty of Law at the University of British Columbia as a tenured Associate Professor.

Her judicial career began in April 1981, when she was appointed to the Vancouver County Court. In September of that year, she was appointed to the Supreme Court of British Columbia. Elevated to the British Columbia Court of Appeal in December 1985 (the first woman to hold this position), she was appointed Chief Justice of the Supreme Court of British Columbia in September 1988. Seven months later, in April 1989, Beverley McLachlin was sworn in as a Justice of the Supreme Court of Canada. On January 7, 2000, she was appointed Chief Justice of Canada. Again, she is the first woman in Canada to hold this position.

In addition to her judicial duties at the Supreme Court, the Chief Justice chairs the Canadian Judicial Council, the Advisory Council of the Order of Canada and the Board of Governors of the National Judicial Institute. When Governor General Adrienne Clarkson was hospitalized in July 2005, Chief Justice McLachlin served as the Deputy of the Governor General of Canada and performed the duties of the Governor General.

The Chief Justice is the author of numerous articles and publications. She is the recipient of 31 honorary degrees, was awarded the Yes She Can Award from Balmoral Hall School in 2005, is the Honorary Patron of the Institute of Parliamentary and Political Law, and was named Commander of the French Legion of Honour in 2007. She was presented with the Queen's Jubilee Medal and the International Jurists Award in 2008, and is an honorary member of the American College of Trial Lawyers. In 2010, she was named Canadian of the Year by the Canadian Club of Toronto and was inducted into the International Hall of Fame by the International Women's Forum.

Irmo Marini

DOCTOR OF SCIENCE

Dr. Irmo Marini is currently Professor and PhD Coordinator of the Doctoral program in rehabilitation counseling in the College of Health Sciences and Human Services at the University of Texas-Pan American, in Edinburg, Texas.

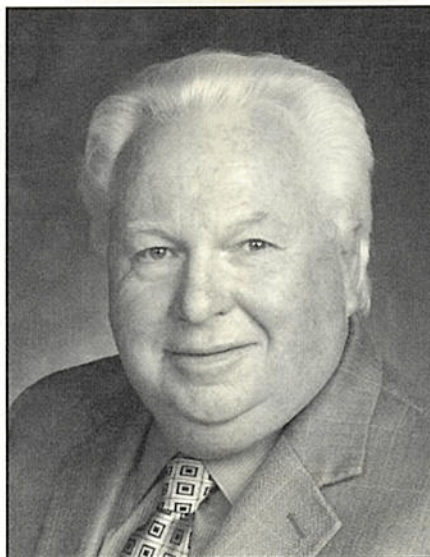

Dr. Marini completed his Honours BA in Psychology (1984), and Master of Arts degree in clinical psychology (1985) at Lakehead University. He served as Lakehead University's first Student Counselor from 1985–1989, before moving to Auburn University in Alabama to complete his PhD in rehabilitation. After graduating from Auburn in 1992, he obtained his first academic appointment at Arkansas State University. In 1996, he moved to Edinburg, Texas, to begin the new Master's program in rehabilitation counseling at the University of Texas-Pan American. Over his 20-year academic career, Dr. Marini has earned two outstanding faculty research and scholarship awards at Arkansas State, three outstanding faculty research and scholarship awards at Pan-American, two outstanding teaching awards at Pan-American, and one service award.

As graduate coordinator of the rehabilitation counseling program at the University of Texas-Pan American, Dr. Marini was instrumental in bringing national recognition to its current 17th-ranked status, as rated by US News and World Report, from over 100 such programs. Having largely designed and implemented the new PhD program in rehabilitation counseling at Pan-American in 2008, Dr. Marini currently advises over 15 PhD students.

On a national level, Dr. Marini was the recipient of the 2009 Distinguished Career in Rehabilitation Education Award by the National Council on Rehabilitation Education, and received the 2010 James F. Garrett Distinguished Career Award in Rehabilitation Research by the American Rehabilitation Counseling Association. He has published over 70 peer-reviewed journal publications, 25 book chapters, and three co-authored or co-edited books on counseling- and rehabilitation-psychology-related topics. He also serves on three journal editorial boards, is the current Editor of the Journal of Life Care Planning, and has given over 100 invited regional, national, and international presentations. He is former President of the American Rehabilitation Counseling Association, and former Chair of the Commission on Rehabilitation Counselor Certification, the national certifying body of more than 16,000 counselors in the United States and Canada.

Aside from his academic appointments and accomplishments, Dr. Marini began a forensic rehabilitation consulting practice, Marini & Associates, in 1994, with offices in Texas and Las Vegas, and currently employs five former and current graduate students. He is a vocational expert witness with the Social Security Administration in Texas as well as a life care planning and vocational expert retained by personal injury attorneys or defense attorneys involved in litigation across the US, Mexico, and Canada, to determine the future medical care and/or vocational damages in such cases. Dr. Marini has testified as an expert witness in over 3,000 cases.

All of Dr. Marini's accomplishments to date come following his 1981 accident while playing Varsity hockey for Lakehead University, when he sustained a C5-6 tetraplegia.

Harvey Cardwell

FELLOW OF THE UNIVERSITY

Harvey Cardwell is currently CEO of Northco Group, a real estate development and management, food service and lodging, and franchise consulting company. Though born and raised in Stratford, Ontario, and educated in Southern Ontario, Harvey came north to Thunder Bay in 1975. With his early career spent with such companies as Metropolitan Stores, The Oshawa Group, Zehr's Market, and Tim Hortons, (retail to food service), it was a logical step that Harvey became co-founder of Robin's Foods Inc., serving as President until the company was sold in 2000. Starting with one store, Robin's® became one of the top-grossing donut chains in Western Canada and, with over 240 locations from Vancouver Island to PEI, Robin's® is one of the most senior franchise organizations of North America.

Commitment to the advancement of knowledge and service-based industries showcasing the diversity and ability of Northern Ontario people is married to Harvey's passion for business, and his vision of a thriving Thunder Bay and region. Harvey continues to invest in the development of hotels, food services, financial services, and biomedical fields, seeking to refocus and develop regional richness.

Harvey's work is designed to match his objective of the growth of the economic environment of Northern Ontario, therein enhancing the quality of lifestyles of Northerners. Harvey works diligently to advance community interests, making them integral to the industrial development of the region. Presently, an active participating member of the Board at the locally developed RegenMed (a bone and tissue bank supplying surgeons and dentists in Canada with state-of-the-art bone allograft and cancellous), Harvey shares the enthusiasm for new-industry opportunity of graduates of local colleges and universities, where graduates can remain local in developing their careers.

As education is key to regional development and economic growth, Harvey has, in turn, contributed substantially to the development and growth of Lakehead University, volunteering on the Board of Governors as the Lieutenant Governor's Appointee, 1999–2008, and serving as Vice-Chair of the Board, 2006–2007. During his time on the Board, he served on the Executive Committee, the Compensation Committee, the Internal Relations Committee, the Northern Ontario School of Medicine Committee, and was Chair of the Finance & Investment Committee, Chair of the Operations Committee, and Chair of the Governance Committee. In promotion of business study, Harvey and his wife, Darlene, created the Harvey Cardwell Family Bursary in 1996, awarded to an in-course student in the Faculty of Business Administration.

Jamie Sokalsky

ALUMNI HONOUR AWARD

Jamie Sokalsky, (HB Comm), Chief Financial Officer and Executive Vice President of Barrick Gold, travels all over the globe representing the largest gold company in the world. But his memories of both Lakehead University and Thunder Bay, where he was born and raised, are always close to the surface.

He has good reason to feel that strong connection. Not only did Jamie obtain his Business degree in an environment where he feels the smaller class sizes and professors who truly cared contributed to his success, but he met his wife – the daughter of the late Harold Braun, one of the University's founders, while attending Lakehead University.

After graduation, Jamie headed to Southern Ontario with a group of friends to seek his future. He recalls, with some irony, that "we got in a car and drove to Toronto the same day that Terry Fox was forced to stop his run." Although it turned out to be a tragic end to the young runner's dreams, it was the beginning of a promising future for the new graduate.

Jamie articulated at Ernst and Whinney (now KPMG) in Toronto and achieved his Chartered Accountant designation in 1982. He joined George Weston Ltd., a large food processing and distribution company, shortly thereafter as an Accountant and was later appointed to the position of Assistant Treasurer. He remained there for 10 years before he was recruited to join Barrick Gold in 1993, moving as he says, "from bread to gold." Jamie had never been to a mine at that point, and although financial skills are transferable to any environment, he is now well versed in the complexities of the mining business and has paid many visits to all of the company's mines.

"It's the process of understanding the business" he says, and talking to investors and shareholders and interacting with everyone in the company are a large part of his broad array of responsibilities as CFO and Executive VP.

Jamie is especially proud of being part of the team that has grown Barrick Gold into a global leader in the industry and recalls that when he joined the company, there were 1000 employees in North America and there are now 25,000 world wide. But he recognizes that with growth comes social responsibility. "I'm proud of the fact that we have mined in a responsible way," he says, "and contributed to jobs, infrastructure and economic development in the communities."

He also points out that Barrick owns Hemlo mines and it is particularly gratifying for him to know that the company has extended the lives of the mines in his home region.

Jamie Sokalsky attributes his considerable achievements to a variety of factors, including meeting his wife, who he says is his greatest supporter. He also believes in "hiring people who are smarter than you", taking measured risks and maintaining a sense of humour at all times, philosophies which have served him well for competing in the global market.

Phillip Walford

ALUMNI HONOUR AWARD

Phillip Walford, (BSC Geology) President and CEO of Marathon Gold, has been an avid collector of rocks and minerals since he was a young boy. A native of Toronto, the decision to study geology at Lakehead University was a natural fit for him and he recalls the prospect of heading north and getting away from the big city as an "adventure."

Lakehead University and the Northern experience did not disappoint. Phillip enjoyed his time in Thunder Bay especially the many field trips and hikes which fuelled his growing interest in the Northern topography and landscape. The excursions provided ample opportunity for exploration and Phillip fondly recalls prospecting in the Silver Mountain and Black Bay area.

"I was definitely more interested in the Canadian Shield than sedimentary rocks" he says.

Phillip's professional experience since graduating from Lakehead University has been wide ranging and extensive. Right after graduation, he worked for Hudson's Bay Mining and Smelting and went on to hold a number of senior positions in junior mining companies which took him to exotic locations such as Snow Lake, Flin Flon and the Yukon. His focus, expertise and passion always focused on mining geology.

Phillip was ultimately hired to be the Chief Geologist at Williams Mine in Marathon, which later evolved into Marathon Gold, and he lived in the Northwestern Ontario town for several years with his family. He is especially proud to have been part of the process that gave Marathon a much needed economic boost and "helped to stimulate the generation of wealth in Marathon and Northwestern Ontario." He was also instrumental in bringing the Williams Hemlo Mine, also in Marathon, into production.

After working at Hemlo, his geology career took him to the Americas, Africa and Australia.

And Phillip, who has prospected for minerals in various locations in the world, has achieved an immortality of sorts when a new mineral that he discovered in Chile was named after him. The orange coloured "Walfordite" can be easily referenced in the mineralogy data base.

Phillip Walford, whose wife, son and daughter are also Lakehead University graduates, has a strong connection to Northwestern Ontario and a passion for mining and discovery. He has been able to translate that passion into a successful career as a hands on geologist and developer as well as a skilful administrator and manager.

Michael Friscolanti

YOUNG ALUMNI AWARD

When Lakehead University grad Michael Friscolanti (HBA, English Literature) left his home town of Hamilton in 1995 to attend University in Thunder Bay, his friends and family were a bit puzzled. Michael admits that he knew little of Northwestern Ontario at the time but decided to share in the adventure of a group of friends who were heading north to study Outdoor Recreation. That decision, he readily acknowledges, led to what he describes as "the best experience of my life." Not only did he obtain an excellent education, but he met his future wife and became involved in the campus newspaper, the Argus, where he worked as the News Editor in his final year. It was there that he was bitten by the journalism bug and his future career path was revealed to him. His fond memories of Lakehead University; "the people, the pub" are punctuated by the knowledge that his decision to head north for school was a pivotal moment in his life.

"If it wasn't for the Argus, I don't know if I would be doing what I am doing today", he reflects.

And the reading public who wish to be informed about news, current events and the deeper issues of our time, are glad that he is. Michael went on to study at the graduate level at Ryerson University and pursued his passion for the news business by working at the Toronto Star and the National Post before accepting the position of Senior Writer at Maclean's Magazine in 2006.

He fondly recalls working in "the radio room" at the Toronto Star, his ears eagerly glued to the police and radio scanners so he could alert the senior reporters when a story broke. Michael is now the one pursuing the story and although he humbly points out that in the journalism business, "you are only as good as the next story you are working on", he was honoured to be recognized by his peers when he was awarded three silver medals by the National Magazine awards as well as two awards for investigative reporting by the Canadian Association of Journalists. Michael also published his first book, "Friendly Fire, The Untold Story of the U.S. Bombing that Killed Four Canadian Soldiers in Afghanistan" in 2005.

More recently, Michael is especially proud of his in depth investigative pieces on two stories that have rocked the Canadian public: the Colonel Russell Williams story and the Shafia family honour killings.

Although his career can be all consuming, Michael is quick to point out that his family will always come before everything, "Nothing that I accomplish in my career will ever be as important as that."

Michael's advice to aspiring journalists reflects both his passion and professionalism. He stresses the importance of being patient, open minded and willing to listen.

"Be ready to adapt as you go," he says. "Because what you think is the story may not really be the story."

Matthew Tocheri

YOUNG ALUMNI AWARD

When Matthew Tocheri was growing up as a young boy in Thunder Bay, he confesses that his interests tended more towards pool and music than old bones and fossils. But when he first attended Lakehead University as a part time student at the age of 21, his mother, a Lakehead University graduate in Anthropology, suggested that he sign up for an introductory Anthropology course. Matt was instantly fascinated and the fire was first lit for what would become his career and passion.

"I can remember signing up for as many anthropology courses as I could after that first class" he says.

In reflection, Matt feels fortunate to have had his awakening interest in anthropology nurtured by his professors and fellow students at Lakehead University, especially during the last two years of his program when class sizes became smaller and more intimate. He credits biological anthropologist and professor, Dr. El Molto, with developing his interest in skeletal anatomy and giving him a life changing opportunity to work as his research assistant and conduct fieldwork in Egypt. This was instrumental in Matt's decision to pursue graduate work and a career in anthropology.

Matt pursued his graduate degrees at Arizona State University and in 2005, applied for a one year fellowship at the Smithsonian Institution. The predoctoral fellowship is designed to help doctoral students like Matt complete their dissertation research while using Smithsonian collections and resources. He completed his study of hand and wrist anatomy in living and fossil humans and great apes and upon the completion of his program was asked to remain as a postdoctoral fellow in the Human Origins Program. In 2007, Matt began his permanent position as Data Management Specialist for the program and has continued his research in this ever unfolding and exciting branch of physical anthropology.

Matt is especially proud of his work on the hand and foot anatomy of *Homo floresiensis*, an extinct species of human discovered on the Indonesian island of Flores. The tiny humans (one metre tall) are thought to be descendants of early humans of the area (perhaps *Homo erectus*) and Matt points out that studying their anatomy helps us understand the evolutionary differences between modern humans and other lineages and species that came before us.

Matthew Tocheri has secured a successful career and work that he loves by pursuing his interests and doing what needed to be done to always try to take that passion to the next level. He recognizes that he was fortunate to have had the encouragement and support of his professors and his family and recognizes that it may be more challenging for others to reach their goals. But the reward is immeasurable for those who persevere.

"You just need to struggle to get through the things that hold you back" he says.

The Mace

The mace, originally a mediaeval weapon of offense in the form of a club, weighted heavily at one end, and usually made of iron, steel or brass, was designed to break through the heaviest armour. Bishops carried maces in battle, rather than swords, in order to conform to the canonical rule which forbade priests to shed blood.

The earliest ceremonial maces were carried by royal body guards known as serjeants-at-arms in formal processions of the courts of Phillip II of France, and probably Richard I of England. However, the practical purpose of discouraging attacks upon the king gradually gave way to the European love of ceremony, and as early as the 14th century maces tended to be more decorative and symbolic.

The mace has thus come to represent the authority of the body or institution which possesses it. In Canada's Parliament, for example, a mace is carried into the House at the beginning of each session by the serjeant-at-arms. Similarly, at many Canadian universities, a mace is present at ceremonial functions to represent the ongoing authority, dignity and spirit of the university.

The official mace of Lakehead University, a gift of the Alumni Association, was designed by Ken Campbell of the Board of Education and constructed by John Butler, Senior Technician in the University's Science Workshop.

In keeping with the responsibilities of Lakehead University, the new mace is made entirely of materials from the region of Northwestern Ontario. The head consists of a golden cluster of jack pine cones on a smooth silver hemisphere. It is surrounded by two nickel-silver rings on either side of a band of polished nickel inscribed with official insignia of Lakehead University. The base of the head is comprised of four triangular specimens of ore mined in the region: silver, gold, nickel and copper. Below the ores is a handle of silver which leads into a shaft of stainless steel surrounded by fluted bronze. Upon a narrow insert of silver is inscribed the motto of the University. The shaft ends in a boss of nickel-silver with an insert of local amethyst crystal. Each section of the shaft is separated by a small silver ring.

The mace was used for the first time in the Convocation ceremonies, Saturday, May 27, 1972.

Lakehead University

The Arms of the University were granted by the Earl Marshal, the Duke of Norfolk, on June 20, 1959.

The heraldic description is:

Coat of Arms

"Barry wavy of six Argent and Azure on a Chief Gules in front of a rising Sun issuant from the base of the Chief Or between two candles enflamed proper each surmounted of an open Book also proper edged and bound Gold a Portcullis chained Sable."

Crest

"On a Wreath Or and Azure on Water Barry wavy Argent and Azure in front of a Rock growing therefrom a Pine Tree a Canoe paddled by an Indian Brave and Canadian Trapper."

Motto

Ad augusta per angusta
Achievement through effort
