Lakehead University Convocation 2005

Saturday, May 28, 2005 marks Lakehead University's forty-first convocation for the conferring of degrees and diplomas. The word "convocation" means "calling together". It is a ceremonial meeting of the entire university community. On Convocation Day university members and their guests wear special attire based on a tradition that dates back as long as seven centuries ago. The academic costume, also referred to as academic "dress" or "regalia", had its origins in the ancient European universities. The regalia was devised to distinguish academic persons such as doctors, licentiates, masters and bachelors. In the middle ages they were worn as everyday attire. Gowns were a necessity because of unheated buildings and hoods were needed to cover the heads of medieval scholars.

There are many variations of academic dress. The hood, gown and in some cases the special hat (mortarboard) worn by an individual is determined by the style of the university where he or she received a degree. The colourful gowns and hoods of universities from across Canada, the United States, the United Kingdom and several other nations of the world are worn here today.

The academic dress chosen by Lakehead University is fashioned after that of the University of Oxford, the oldest English-speaking university in the world. The robes worn by the officers of the university - the Chancellor, who presides at convocation, the President (who is also the Vice-Chancellor) and the Chair of the Board of Governors - are all of the Oxford cut and trim. Each has its own distinctive colour. The colourful gowns worn by the individuals who are receiving honorary degrees are of the same design as are the black gowns worn by the student candidates. The ritual at convocation reflects the medieval custom that anyone in a university could wear a gown, but a hood was the symbol of a degree. Students who have met the university's academic requirements (three, four, five, six or seven years of study in particular subjects) wear the symbol of their status as holders of a Lakehead University degree. Lakehead University's bachelor's and master's degree hoods are distinguished by a one or two inch colour border which indicates the degree

acquired eg. white for Arts, drab for Commerce, blue for Education, burgundy for Nursing, etc. Lakehead's first PhD degree was conferred in 1998.

In addition to "earned" degrees, the university confers "honorary" degrees which symbolize the highest honour that can be conferred on an individual by the university. An honorary degree may be awarded in recognition of scholarly or creative attainments or distinguished public service to the country or region. They go to individuals who have been designated by the University's Senate, its senior academic governing body, as deserving special honour. At convocation the degree is awarded *honoris causa*, or "for the sake of honour". A hood is also given to the recipient and it may be worn to any academic affair. Recipients of these degrees become honorary alumni of the University and they may affix, after their names, the abbreviation of the degree. Two honorary degrees, the Doctor of Laws and the Doctor of Humane Letters, will be conferred in today's ceremonies.

The Board of Governors of the university also recognizes individuals who have contributed to the growth, development, welfare and well-being of Northwestern Ontario and of Lakehead University. This is done by the conferring of the title Fellow of the University. You will recognize university Fellows by their familiar blue gown with white velvet epitoge or scarf.

During the processional and the recession the Marshal for convocation carries the Mace, a silver wand which is a traditional symbol of the university's authority. This mace was given to the university by the Alumni Association in 1971. It bears the university's motto *Ad augusta per angusta*, Achievement through Effort.

Today the university community celebrates its forty-first convocation. Its members dress in clothes which are symbolic, not functional, and go through a centuries old ritual for the conferment of degrees and diplomas. We thank you for being present to share this special event with us.

Phil Fontaine

National Chief of The Assembly of First Nations

Phil Fontaine has devoted his life to improving the quality of life for First Nations citizens. He was born in 1944 at Sagkeeng First Nation, 150 kilometres north of Winnipeg. He attended residential schools in Sagkeeng and Assinaboia, later emerging as a leading critic of abuse in that system.

In the 1970s, Phil Fontaine served two terms as chief of his own Sagkeeng First Nation, promoting autonomy and treaty rights. After a stint in the Yukon working for the federal government, he returned home and completed his Bachelor of Arts in political science at the University of Manitoba in 1981. In 1982, he was elected Manitoba's Vice Chief for the newly formed Assembly of First Nations.

Following the defeat of the Meech Lake Accord, Phil was elected Grand Chief of the Assembly of Manitoba Chiefs, serving three consecutive terms from 1991 to 1997. In 1997, Phil was elected National Chief of the Assembly of First Nations, succeeding Ovide Mercredi. As National Chief from 1997 to 2000, he fought to protect the rights, treaty obligations and land claims of First Nations people. He became the first aboriginal leader to address the Organization of American States.

In 2002, he was appointed Chief Commissioner of the Indian Claims Commission, where he helped resolve several significant land claims. In July 2003, he was again elected for a three-year term as National Chief of the Assembly of First Nations. Currently, he is negotiating changes in federal legislation on First Nations governance.

In 1996, he received the national Aboriginal Achievement Award for community service. He has received honorary degrees from the Royal Military College and Brock University. In 2004, he was made a Member of the Order of Manitoba.

As Chief of the Assembly of First Nations, Phil Fontaine is now based in Ottawa. He is the proud father of two children and a Mishoom to five grandchildren.

George C. Macey DDS

Community Builder

For the past eighteen years, Dr. George Macey has worked enthusiastically to promote economic development, technology and health care in Northwestern Ontario.

George came to Thunder Bay in 1968 as a newly minted dentist from the University of Toronto. In 1985, he and his family moved to Marathon, where he has continued to practise dentistry in a rural setting. On top of his professional responsibilities, George has provided leadership in shaping public policy to support the goals of the region.

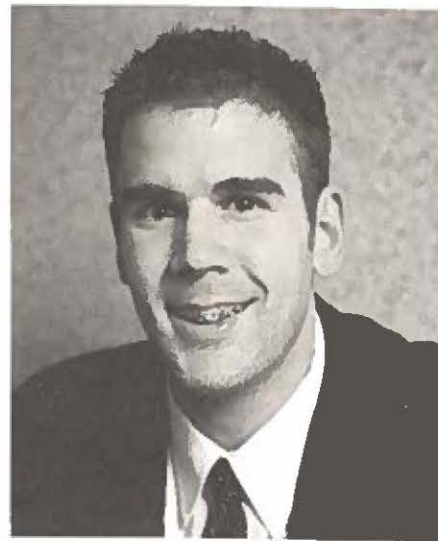

Since 1988, George has served on the Northwestern Ontario Associated Chambers of Commerce, where he is currently Senior Advisor on Health, Innovation and Public Policy. He is an active member of the Marathon Chamber of Commerce and Chair of the Marathon Development Commission.

George has represented the needs and dreams of the region before many committees at the municipal, provincial and federal levels. He has advocated for FedNor (the federal economic development agency) and the Community Futures Development Corporation.

For the past ten years, George has promoted technology in the private sector as a member of the Board of Northwestern Ontario Technology Centre (NOTC). He has contributed to NOTC projects such as the ADVANCE Early Stage Innovation Initiative Program, which provides technical assistance and support services to small businesses; and the Connect Ontario Northern Genesis project, a Smart Community project to develop web portals and broadband service.

In his home community, George has spearheaded the Marathon Physician Recruitment and Retention Coalition and the Marathon Medical Clinic Fundraising and Building Committee. Since 1995, he has been a member of the NOW (Negotiating for Ontario's Well-Being) Alliance, a province-wide coalition committed to improving physician recruitment and retention.

George continues to work for positive change in policies affecting Northwestern Ontario. He and his wife Krystyna (B.Sc.N. Lakehead University 1975) are the parents of Leanna, a Lakehead University graduate, and Tyler, a Vancouver filmmaker.

Chris Fernyc
Portfolio Manager

In 1985, when Chris Fernyc was only ten years old, his father took him to visit a brokerage office in Thunder Bay. Sitting in the gallery with some market veterans, Chris was captivated by the flow of ticker tape.

Some years later, Chris enrolled at Lakehead University to prepare for a career in investment management. When he graduated with his Honours Bachelor of Commerce in 1997, Chris received the President's Award for contributions to the advancement of the University and the Dean Braun Medal as the highest ranking student in the Commerce program.

With these credentials, Chris was ready to pursue his dream. Since 1998, he has worked for Bisset Investment Management in Calgary, rising to Vice President and Portfolio Manager for Canadian Small Cap Equities. (Small Cap funds invest in companies with market capitalization under seventy-five million dollars.) Chris continued his studies in Investment Management and was accredited as a Chartered Financial Analyst (CFA) in 2000.

As a tribute to the education he received at Lakehead University, Chris has found a very personal way to help current students achieve their goals. Since 2000, Chris has sponsored an annual competition for third-year finance students at Lakehead. Students complete a class assignment that involves analyzing companies and making investment recommendations. Chris reads the students' reports, selects the winners and gives cash prizes to the top three entries. Then, from his office in Calgary, he holds a teleconference with the students to discuss their papers and answer their questions about finance and investment.

Chris is giving back to his alma mater as he continues to develop his own career. Much has changed in the financial markets since Chris was first enthralled by the ticker tape. The galleries are gone, the exchanges are fully electronic, and television continuously broadcasts market prices. Nevertheless, Chris is still intrigued by the endless stream of data and thrives on the daily challenge of interpreting it.

ERRATA

The following graduates of the Master of Public Health degree should have the designation, "Health Studies," associated with their degree: Kathryn Campbell, Olusegun Oyedepi Famure, Nicole Jean Latour, Michelle Ann Lyne, Renu Qazi.

No Distinguished Researcher Award will be given out this year. The name of Dr. Bruce Strang, who received the Contribution to Research Award, appears by error in this entry. Our apologies to Dr. Strang.

"Honours" should be deleted from "Honours Bachelor of Science - 4 Year" among the degrees of the Faculty of Social Sciences and Humanities.

FORTY-FIRST ANNUAL
CONVOCATION
FOR THE CONFERRING
OF DEGREES AND DIPLOMAS

Maude Barlow

National Chairperson of The Council of Canadians

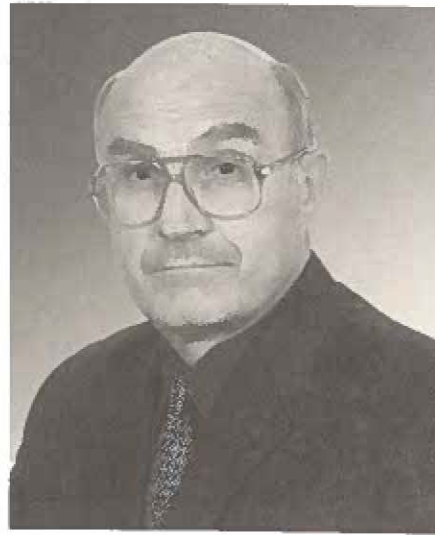

As head of The Council of Canadians, Maude Barlow is probably Canada's best-known critic of economic integration with the United States and corporate globalization.

Born in 1947, Maude grew up in Ottawa, the daughter of social activist Bill McGrath. As a young woman, she was profoundly affected by the feminist movement. She has been in the public eye since 1983, when she was hired by Prime Minister Pierre Trudeau as the first adviser on women's issues in the Prime Minister's Office.

In 1988, Mel Hurtig, founder of the Council of Canadians, encouraged Maude to take over as National Chairperson. Under her leadership, this non-partisan citizens' advocacy group has grown to over 100,000 members. As National Chairperson, Maude campaigns vigorously to safeguard social programs, assert Canadian sovereignty, resist free trade and preserve the environment. She has been a voice of dissent on many controversial issues involving the North American Free Trade Agreement, the World Bank and the World Trade Organization. She was among a crowd of demonstrators who were tear-gassed at the Quebec Summit of the Americas in 1991.

In recent years, Maude founded the Blue Planet Project, an international network committed to protecting water as a basic human right and stopping the privatization and sale of the world's fresh water. Maude is also a Director of the International Forum on Globalization, an international research and education alliance that studies the negative effects of economic globalization.

Maude holds honorary degrees from four Canadian universities. She is the author or co-author of fourteen books, including *Blue Gold, The Fight to Stop Corporate Theft of the World's Water* (with Tony Clarke, 2002); *Profit is Not the Cure, A Citizen's Guide to Saving Medicare* (2002); and *The Canada We Want: A Citizen's Alternative to Deep Integration* (2003). She is known for her insightful and controversial presentations to Canadian and international audiences.

Rod Shewchuk

Lawyer

Lawyer Rod Shewchuk has achieved professional success in his hometown of Kenora, while contributing to the quality of life in Northwestern Ontario.

Rod graduated from Kenora's Lakewood High School in 1965, the same year Lakehead University was formally established. He seized the opportunity to attend university in Northwestern Ontario and enrolled at Lakehead University, graduating with a Bachelor of Arts (Economics) in 1968.

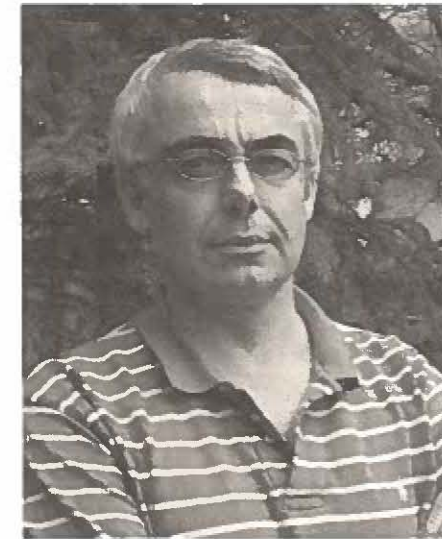

Rod's studies at Lakehead University gave him a solid foundation for law school at the University of British Columbia, where he earned his LL.B. in 1971. The experience of commuting in Vancouver convinced Rod he should return to Northwestern Ontario, where he could work, golf, curl and fish close to home.

Since his call to the Ontario bar in 1973, Rod has practised law in Kenora, focusing on Real Estate, Wills and Estate Planning, Powers of Attorney and Commercial Law. In service to his profession, he is active in the Kenora District Bar Association and sits on the Area Legal Aid Committee.

Rod served on the Board of Governors of Confederation College from 1988 to 1994, working to expand opportunities for post-secondary education across the region. During his term as Vice-President, the College made the decision to build an area campus in Kenora. With Rod's ties to both Confederation College and Lakehead University, he encouraged cooperation between the two institutions in providing distance education.

In addition, Rod has provided leadership to many community groups including the Child Development Center, Kenora Police Services Board, Kenora Lions Club, Ukrainian Professional and Businessmen's Club of Kenora and the Evergreen Ski Club. An ardent golfer, Rod was President of the Kenora Golf and Country Club when the course was expanded from nine to eighteen holes in 1987.

Rod continues to enjoy living and working close to Lake of the Woods. He and his wife Pat have one son, Brian.

Stephen Low

Giant-Screen Filmmaker

For twenty-five years, Lakehead University Alumnus Stephen Low has been making popular and award-winning films for the giant screen. Although he has earned a reputation for creating amazing visual effects, Stephen's fundamental goal as a filmmaker is always to tell a powerful and enriching story.

Stephen grew up in Montreal, the son of filmmaker Colin Low. He came to Lakehead University in the early 1970s, graduating with a Bachelor of Arts (Political Science) in 1974. He began working in motion pictures, soon gravitating to documentaries. He produced and directed *Challenger* for the National Film Board, winning the Grierson Award for achievement in documentary film in 1981.

In 1985, he founded The Stephen Low Company, based in Dorval, Quebec. Since then, he has produced and directed ten giant-screen or IMAX features. His second IMAX film, *Beavers* (1988), remains the most profitable Canadian movie ever made and was recently inducted into the Maximum Image Hall of Fame. Stephen's other large-format films include *Skyward* (1985), *Flight of the Aquanaut* (1992), *Titanica* (1992), *Across the Sea of Time* (1995) and *Super Speedway* (1997).

Stephen's first IMAX 3D film, *The Last Buffalo* (1988), was the most popular attraction at Expo '90 in Osaka Japan, viewed by almost two million people. He has also made *Mark Twain's America* (1998) and *Volcanoes of the Deep Sea* (2003) in the IMAX 3D format. Most recently, he released *Fighter Pilot: Operation Red Flag* (2004), a thrilling three-dimensional flight in a supersonic jet.

Stephen has won over forty awards worldwide and has helped develop equipment such as underwater camera housings and lighting. In 2004, The Large Format Cinema Association gave Stephen the Kodak Vision Award, citing his keen and innovative cinematographic perspective and masterful storytelling skills. Despite his success, Stephen prefers to work outside the glare of publicity, where he can continue to take creative risks and tell stories that matter.
