University President's Concerned Over Operating Grants Squeeze

At a joint meeting with the Committee on University Affairs held on October 7, the Committee of Presidents made a preliminary presentation on the universities' estimates of their operating grant requirements in 1970-71.

CPUO summarized comments by the universities on the impact of the 5.5% increase in 1969-70 in the value of the basic income unit under the operating grants formula. These comments indicated that the universities of Ontario find themselves in a marked financial squeeze for 1969-70. Necessary increases in academic salaries of the order of 10% meant either a diversion of funds from other important areas of expense to salaries or a deterioration in staff/student ratios.

The financial implications of various levels of increase in the income unit at three possible levels of enrolment were explored. The CPUO analysis showed that at the most likely level of enrolment with no change in the value of the unit, a 15% increase in total operating grants would be required. Assuming that the general cost index and salaries would continue to rise at about the same rate as they had in the past year, the minimum increase in the value of the basic income unit for 1970-71 required

to enable the universities to operate at the same standard as at present would be 8.5%.

Another joint meeting with the Committee on University Affairs will be held in December. By that time more concrete data on 1969-70 enrolments and costs will be available, and this will enable the estimates of universities' operating requirements in 1970-71 to be refined and more extensively documented.

The Ontario Student Awards Program and the Ontario Graduate Fellowship Program have been in existence for several years. These programs have been successful however concepts of student support are changing and the Ontario Committee on Student Awards has decided to undertake a comprehensive review of all student grant, loan and fellowship programs in the province.

The Ontario Council of Graduate Studies which advises CPUO on graduate awards, is undertaking a full study of the Ontario Graduate Fellowship program to determine whether changes should be made in its objectives, operation scale and relation to other programs. The Ontario Student awards program will also be reviewed by the CPUO Subcommittee on Student Aid.

GUEST ARTIST

Marilyn Keiser, a young recitalist from the Cathedral of St. John the Divine in New York, will be the feature artist on Friday, October 31 in Lakehead University's "Man and His Arts" program's series of guest artists.

The recital will begin at 8:30 p.m. and is open to the public. Tickets are available at Crook's Pharmacies, St. Paul's Church, and the Lakehead University switchboard.

On Saturday, Nov. 1 at 9:00 a.m., Miss Keiser will conduct a Master Class for all area organists, also at St. Paul's Church. At that time she will offer suggestions to performers, and play some contemporary music.
