

SECOND PHASE CAPITOL PROGRAM

NEW ACADEMIC FACILITY, EXPANSIONS OF LIBRARY, ATHLETIC BUILDING ANNOUNCED

●In 1966 Lakehead University entered the first phase of its Development Program, which was designed to provide space and facilities for a student body of 3000. A very successful Development Fund Campaign was launched which yielded over \$3 million in pledges. Phase One construction and alterations are now nearing completion, after a total expenditure of \$25 million, the majority of the balance coming from government grants.

Enrolment at the University, however, has grown far more quickly than anticipated. In 1966 it was estimated that in 1970-71 there would be 2200 full-time students. Next year, in fact, our enrolment should exceed 3000. There will also be over 3000 part-time students in the summer and winter sessions. In short, construction has been unable to keep pace with enrolment.

Lakehead University, therefore, is today announcing the commencement of the second phase of its Development Program at an estimated \$9.3 million. The initial stage of Phase Two will see the construction of facilities to serve academic, library, athletic and utility requirements as well as the attendant servicing and site development.

The largest project will be a new academic building to house faculty offices and general purpose teaching areas, including one large lecture theatre. This new building, at an estimated cost of \$2,830,000 will provide additional area of approximately 40,000 n.a.s.f. (Net Assignable Square Feet is the measurement of usable space in a building and excludes such areas as hallways, washrooms, storage areas, etc.) and will be completed in 1972. It will be designed in a modular fashion so that subsequent additions can be made while still retaining the aesthetic concept.

An extension of 20,000 n.a.s.f. to the present Library building, at an estimated cost of \$1 million, will be ready for late 1971. The extension will house for the most part Library service and administrative facilities. Expansion of stack and seating areas will be provided by the gradual vacation of upper floors of the present library building, which are currently utilized for teaching and faculty office space.

The tremendous response to the University's new Physical and Health Education Program, a larger than anticipated student body and increased use of facilities by the non-University community have made imperative an expansion of our present athletic complex. This expansion will be in two stages. The first stage will provide, at an estimated cost of \$500,000, much needed space for change and locker rooms, shower facilities, laundry and dispensing rooms and faculty offices. This 10,000 n.a.s.f. extension will be finished by the summer of 1971. The second stage for which the design and method of financing is not yet finalized, will provide additional teaching areas, squash courts (two of which are now occupying space required for academic purposes) and a competition-size swimming pool suitable for the teaching of swimming, diving and synchronized swimming.

The academic, library and athletic buildings detailed above, when combined with the need to service a new Regional School of Nursing building to be built this year on the campus of Lakehead University, create a demand for additional heating and electrical facilities. The present Power House will be extended by 5000 n.a.s.f. and will provide space for the installation of one fifty thousand pound per hour boiler, an additional chiller, a diesel standby generator and a minimum amount of electrical work. The total cost of the Power House extension is an estimated \$1.5 million, of which \$1,225,000 will be for equipment.

An estimated expenditure of \$1,690,000 over the next three years will be required for Site Services and Utilities Extension. These projects are essential to integrate the new building with the balance of the campus. They will provide such necessities as heat, power, sewers, roads, walkways, exterior lighting and landscaping.

An additional \$30,000 will be expended on renovations to the Faculty of Education building (the former Lakehead Teachers' College). These renovations will increase the space available for the specialized Education Library, faculty offices and the student lounge.

L.U. PROFS AWARDED NRC GRANTS

●National Research Council grants amounting to \$110,000 have been awarded to members of Lakehead University's Faculty of Science.

Dean of Science, Dr. R. A. Ross announced that operating grants were received by:

W.H. Baarschers (Chem.)	\$5,000
P. Barclay-Estrup (Bio.)	3,000
	(1st of 3)
J. Crossley (Chem.)	4,500
W.B. Eames (Math.)	900
P.O. Frederickson (Math.)	1,300
R. Freitag (Bio.)	3,500
	(1st of 3)
W.M. Graham (Bio.)	3,000
H.C. Groh (Math.)	1,500
G.H. Harvais (Bio.)	4,800
J.W.L. Hastings (Phys.)	6,500
M.H. Hawton (Phys.)	600
	(1st of 3)

D.G. Holah (Chem.)	8,000
A.N. Hughes (Chem.)	6,500
J. Kendall (Phys.)	4,000
C.F. Kent (Math.)	2,200
H. Loubat (Geol.)	1,000
J.S. Mothersill (Geol.)	7,000
	(1st of 3)
V.V. Paranjape (Phys.)	7,500
R.A. Ross (Chem.)	10,000
J.L. Talbot (Geol.)	4,500
S. Walker (Chem.)	12,500
	(1st of 3)
J.H.M. Whitfield (Math.)	500

In addition Dr. Hastings (Physics) received a major equipment award of \$11,575.

Other N. R. C. operating grants were awarded to:

B.A.M. Phillips (Geog.)	\$3,000
D. Roddy (Elec. Eng.)	2,500
K.P. Satinder (Psyc.)	3,000

●Dr. V. Paranjape, Associate Professor of Physics at Lakehead University has been named the new chairman of the Dept. of Physics. He is replacing Dr. John Hart who is leaving for a two-year sabbatical.

●L.U. WEEK is published weekly by the Dept. of Information Services at Lakehead University, Oliver Road, Thunder Bay, Ont. and distributed free of charge to faculty, students, administrative staff and friends of the University. Copy should be sent to the Information Office by 5 p.m. on Wednesday for publishing in the following WEEK.

Gail Keffer, Secretary
Vol. 2, No. 33 May 1, 1970

Puck, Cage Coaches Named

●A former NHL defence-man and Canada's basketball "coach of the year" in 1968 have been named to coaching positions by George Birger, director of athletics.

Lee Foglin will succeed Bill Shannon as LU hockey coach. Foglin played on a Detroit Red Wings' Stanley Cup title team and for the Chicago Blackhawks. Howard Lockhart will be the new basketball mentor. A college all-American and member of a U.S. national championship team. He guided Waterloo Lutheran to the Canadian collegiate crown in 1968.

Shannon and Henry Ackervall, who is completing graduate work will both continue in coaching and teaching assignments. Birger will return as athletic director after graduate study in 1970-1971.

"WHO ARE WE?"

MESSAGE FROM THE L.U. ALUMNI

●The Lakehead University Alumni Association is a group of former students from Lakehead who seek to pay their rent to society by their interest in the welfare of those who occupy the student seats at the moment. Some of them feel very strongly that they received something of worth within the first walls built on the campus. It is this core which forms the L.U. Alumni Association.

There are ninety - seven members, and a total of nine hundred and seventy - seven L.U. Alumni to date, since 1965.

What are we doing? Mostly digging into our pockets for money for our objective of six

hundred dollars for Undergraduate Bursaries, as well as the quarterly general meeting. The Executive plans the Graduation for the Alumni-to-be, plans the place, the food, and how to make ends meet.

Often students think that the magic of a degree brings the magic of money - but money is only a by-product of time and effort, two things which money cannot buy. It is the time and effort of L.U. Alumni which we want and need to pay the 'rent'.

For further information on the L.U. Alumni Association, please contact: Mrs. Grethe McLeod, 285 Pearl Street, Thunder Bay 'P'.

CONFERENCE ON POST-SECONDARY EDUCATION IN T.B. TO MEET AGAIN

●On April 14th, four members of the Commission on Post-Secondary Education in Ontario visited Lakehead University and met with students, faculty, members of the Executive Committee of the Board of Governors and members of the administration. The commissioners, Dr. D. T. Wright, Chairman, Mr. H. L. Macaulay, Mr. David Black and Dr. B. Kymlicka, Secretary and Director of Research, were engaged in a fact-finding mission relative to their task of making recommendations to the Minister of Education and of University Affairs regarding the future development of post-secondary institutions in the Thunder Bay area. The University delegation presented a brief entitled "Post-Secondary Education in Northwestern Ontario" which argued strongly for the retention of the present diploma programs within the University. Dr. Tamblyn stated that he was quite pleased with the Commission's reaction to the University's concern regarding these programs.

The Commissioners also met with representatives of Confederation College of Ap-

plied Arts and Technology during their first visit to Thunder Bay. They will revisit both institutions to discuss their preliminary recommendations before presenting their report to the Minister.

this week

10:20 am	Senate Meeting	Sen. Cham.
2:30 pm	L.U.F.A. Meeting	Rm. 1029
	WED., MAY 6

CONFERENCES

●An estimated 250 delegates from Canada and the United States will attend the 16th Annual Institute on Lake Superior Geology Conference at Lakehead University on May 7 and 8. Highlights of the conference will be four field trips and the presentation of 32 papers. The special guest speaker will be John C. Rudolph who is with the General Exploration Company of Canada, Ltd. (Calgary).

●A two-day workshop entitled "the Library Technician at work: theory and practice" will take place at Lakehead University on May 8 and 9. Librarians and library technicians from across Canada will participate in the program and they will also be treated to a short multi-media presentation by students in the library technology courses at Lakehead. Dan Sudar, Chairman of the LU Library Technology Dept. will be one of the three principal speakers.
