Mathematics Guests

Lakehead University's mathematics department will host 120 top high school mathematics students at a banquet in the Great Hall on Saturday, May 3.

The students represent the outstanding scorers from Northwestern Ontario in the Ontario Junior Mathematics Contest and the Twentieth Annual Mathematics Examination sponsored by the Mathematical Association of America.

Prior to the banquet the students will be conducted on a tour of the university and will be given a special tour of the computer centre. They will then meet in room 1029 to hear speeches from Dr. C. F. Kent, chairman of the mathematics department and Dr. J. S. Griffith, associate professor of mathematics.

Highlight of the banquet will be the presentation of awards to Northwestern Ontario winners of the mathematics contest.

WEDNESDAY AT 8 P.M.

"GREENROOMS" ARE EXPERIMENTAL THEATRE

Two Cambrian Players Greenroom Productions will be held on Wednesday, April 30 in the University Centre Theatre beginning at 8 p.m. All interested residents of the Lakehead are invited to attend.

The Greenroom Productions were originated to give aspiring actors, directors, writers and theatre arts people an opportunity to experiment with their talents before an audience.

By staging short plays, dances, dramatic readings, etc. actors are able to educate and familiarize themselves with the stage, directors are able to experiment with new techniques and scripts which they may have written themselves, and the audience can enjoy an evening's entertainment free of charge.

An evaluation period following the performances enables all participants — including the audience — to voice opinions and criticisms on all aspects of the productions.

Wednesday's Greenroom will include two one-act plays directed by Liz Marshall who was last seen in "Six Characters". The plays include a poetic drama entitled "Purgatory" by W. B. Yeats and a light comedy by N. S. Simpson entitled "Granted, Any Time."

Ahti Tolvanen, a second year Arts student, will direct the second production entitled "Flagella" which he wrote himself. He describes it as "an experiment in extending the limits of theatre communication through increased actor-audience involvement."

If you wish to know more about the Greenroom Productions, plan to attend Wednesday.

DEVELOPING NATIONS STUDY Returns to U.N.

Dr. K. J. Charles, Professor and Chairman of the Department of Economics will return to New York this summer to continue his fixed term appointment as an Economics Affairs Officer in the United Nations Office of Economic and Social Affairs.

Dr. Charles will take up his duties in New York on May 1, returning to Lakehead University in September for the fall term.

Last summer Dr. Charles assisted the United Nations Centre for Development Planning, Projections and Policies in their work involving formulation of policy objectives for developing countries. During this period he prepared a study on "Capital Efficiency in the Developing Economies". The United Nations evaluation report characterized Dr. Charles' work as a "distinguished contribution."

Dr. K. J. Charles
