CONVOCATION
2006**

Lakehead University Convocation 2006

Saturday, May 27, 2006 marks Lakehead University's forty-second convocation for the conferring of degrees and diplomas. The word "convocation" means "calling together". It is a ceremonial meeting of the entire university community. On Convocation Day university members and their guests wear special attire based on a tradition that dates back as long as seven centuries ago. The academic costume, also referred to as academic "dress" or "regalia", had its origins in the ancient European universities. The regalia was devised to distinguish academic persons such as doctors, licentiates, masters and bachelors. In the middle ages they were worn as everyday attire. Gowns were a necessity because of unheated buildings and hoods were needed to cover the heads of medieval scholars.

There are many variations of academic dress. The hood, gown and in some cases the special hat (mortarboard) worn by an individual are determined by the style of the university where he or she received a degree. The colourful gowns and hoods of universities from across Canada, the United States, the United Kingdom and several other nations of the world are worn here today.

The academic dress chosen by Lakehead University is fashioned after that of the University of Oxford, the oldest English-speaking university in the world. The robes worn by the officers of the university - the Chancellor, who presides at convocation, the President (who is also the Vice-Chancellor) and the Chair of the Board of Governors - are all of the Oxford cut and trim. Each has its own distinctive colour. The colourful gowns worn by the individuals who are receiving honorary degrees are of the same design as are the black gowns worn by the student candidates. The ritual at convocation reflects the medieval custom that anyone in a university could wear a gown, but a hood was the symbol of a degree. Students who have met the university's academic requirements (three, four, five, six or seven years of study in particular subjects) wear the symbol of their status as holders of a Lakehead University degree. Lakehead University's bachelor's and master's degree hoods are distinguished by a one or two inch colour border which indicates the degree

acquired e.g. white for Arts, drab for Commerce, blue for Education, burgundy for Nursing, etc. Lakehead's first PhD degree was conferred in 1998.

In addition to "earned" degrees, the university confers "honorary" degrees which symbolize the highest honour that can be conferred on an individual by the university. An honorary degree may be awarded in recognition of scholarly or creative achievements or distinguished public service to the country or region. They go to individuals who have been designated by the University's Senate, its senior academic governing body, as deserving special honour. At convocation the degree is awarded *honoris causa*, or "for the sake of honour". A hood is also given to the recipient and it may be worn to any academic affair. Recipients of these degrees become honorary alumni of the University and they may affix, after their names, the abbreviation of the degree. Two honorary degrees, the Doctor of Laws and the Doctor of Science, will be conferred in today's ceremonies.

The Board of Governors of the university also recognizes individuals who have contributed to the growth, development, welfare and well-being of Northwestern Ontario and of Lakehead University. This is done by the conferring of the title Fellow of the University. You will recognize university Fellows by their familiar blue gown with white velvet epitoge or scarf.

During the processional and the recessional the Marshal for convocation carries the Mace, a silver wand which is a traditional symbol of the university's authority. This mace was given to the university by the Alumni Association in 1971. It bears the university's motto *Ad augusta per angusta*, Achievement through Effort.

Today the university community celebrates its forty-second convocation. Its members dress in clothes which are symbolic, not functional, and go through a centuries old ritual for the conferment of degrees and diplomas. We thank you for being present to share this special event with us.

Photographs - Those wishing to take pictures of the graduates are most welcome to come forward to the left and right of the stage. To avoid congestion of that area, please wait until your particular graduate is ready to receive his or her degree before you come forward.

FORTY-SECOND ANNUAL
CONVOCATION
FOR THE CONFERRING
OF DEGREES AND DIPLOMAS

Paul Weiler

Law Professor and Policy Advisor

Professor Paul Weiler is a leading legal scholar and policy advisor in Canada and the United States. He spent his first few years in Geraldton before the family moved to Fort William, where Paul attended St. Martin's elementary school and St. Patrick's high school. He is the eldest son of the late Marcella and G. Bernard Weiler QC. (His father served as Chancellor of Lakehead University from 1987 to 1991.)

Paul was completing a Masters degree in Philosophy at the University of Toronto when Bora Laskin (a family friend from Thunder Bay) convinced him to change course and go to law school. While attending Osgoode Hall Law School, Paul had his first taste of legal work, working summers for his father and uncle at the Weiler and Weiler law firm in Fort William. He received his LL.B. in 1964 and then, once again on the advice of Bora Laskin, he went to Harvard, earning his LL.M. in 1965.

From 1965 to 1973, Professor Weiler taught at Osgoode Hall and practised as a labour arbitrator. He served as Chair of the British Columbia Labour Relations Board from 1973 to 1978, creating the progressive B.C. Labour Relations Code, which continues to influence labour law and policy across Canada. In 1979, he returned to Harvard to teach.

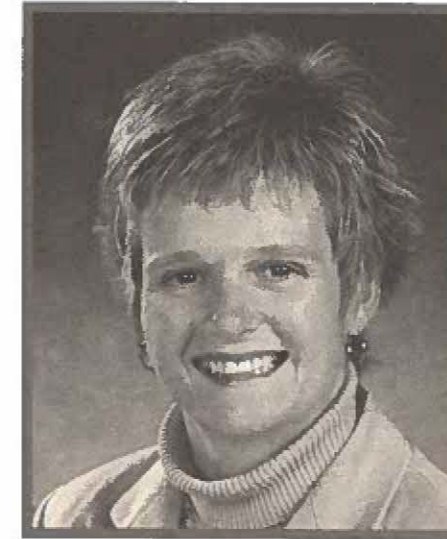

At the request of the Ontario government, Professor Weiler conducted a comprehensive review of Ontario's Workers' Compensation system, leading to the creation of the independent Workers' Compensation Appeals Tribunal in 1985.

In 1993, he was appointed by U.S. President Bill Clinton as Chief Counsel to the Dunlop Commission on the Future of Worker-Management Relations. For more than two decades he was the Impartial Umpire for the AFL-CIO.

Professor Weiler has been described by the Financial Post as "the foremost labour law scholar in North America."

He has also had a major influence in Canadian constitutional law. In the early 1980s he was instrumental in developing the Notwithstanding Clause as part of the new Canadian Charter of Rights and Freedoms, thus helping to bring about the compromise that led to The Constitution Act, 1982.

In addition, Professor Weiler has done extensive work in the study of personal injury, tort and medical malpractice reform, as well as sports and entertainment law. He has written seventeen books on a variety of subjects and is currently the Henry J. Friendly Professor of Law at Harvard.

Tracy Buckler

President & Chief Executive Officer, St. Joseph's Care Group

An employee of St. Joseph's Care Group for over 20 years, Lakehead University Alumna Tracy Buckler became the President and Chief Executive Officer of the multi-site healthcare organization in 2006. As leader of a corporation with approximately 1700 people and an operating budget of \$115 M, Tracy carries on the philosophy of compassionate care, which has been the tradition of the Sisters of St. Joseph of Sault Ste. Marie since 1884. Tracy Buckler is a leader with style and savvy who showcases her enthusiasm for life with a big, no-holds-barred laugh.

Tracy was born in Scotland and raised in Wawa, Ontario. She came to Thunder Bay in 1985 soon after graduating from Sault College with a Diploma in Nursing. She was hired by St. Joseph's General Hospital. Tracy continued to work and furthered her studies at Lakehead University as a mature student that ultimately led to her Post-RN Bachelor of Science in Nursing degree in 1999. This balance between work, family and education required multi-tasking, a skill that has helped in her journey.

She was encouraged and mentored on the job by both Sister Bonnie MacLellan, (former Assistant Executive Director – Patient Services) and Carl White (former President), who saw potential in Tracy.

Tracy completed a Master of Health Studies – Leadership (MHS) degree from Athabasca University in 2003 and is currently completing a Certificate in Catholic Leadership from the University of Toronto (St. Michael's College).

Tracy believes that there is tremendous opportunity in health care today and advises graduates to make sure they love what they do. If you are working with clients, residents, or patients you have to like people – it's that simple. She found her time on the front-line of healthcare delivery a satisfying privilege.

Recruiting health care professionals to Thunder Bay is something that Tracy enjoys because of her love for this community. From her office window she has a glimpse of Lake Superior. The view of the lake is a constant reminder of how fortunate she is to be where she is and how proud she and her family are to call Thunder Bay home.

FORTY-SECOND ANNUAL
CONVOCATION
FOR THE CONFERRING
OF DEGREES AND DIPLOMAS

Jerry F. Franklin
Forest Ecologist

A leading authority on sustainable forest management, Jerry Franklin has been called "the father of new forestry." His extensive research has led to a shift in logging practices from conventional clear-cutting to a new strategy where logs, wood debris and some standing dead and live trees are left behind.

He received his bachelor's and master's degrees in forest management from Oregon State University and a Ph.D. in botany from Washington State University in 1966.

After years of experience as a researcher for the United States Department of Agriculture's Forest Service, Dr. Franklin began teaching forestry, first at Oregon State University and, since 1986, at the University of Washington.

In 1993, he was appointed program director of the Wind River Canopy Crane Research Facility in Washington State. He oversaw the installation of a 250-foot crane that can carry scientists throughout an old-growth forest to observe budding, branching and photosynthesis.

In addition to teaching and research, Dr. Franklin has served on the boards of the Ecological Society of America, the National Institute for Global Environmental Change, the Nature Conservancy and the Wilderness Society. He has worked on scientific policy analyses for United States federal and state governments and for the province of British Columbia. He played a major role in the Northwest Forest Plan, which resolved the controversy over spotted owls and timber jobs in 24 million acres of federal lands.

Dr. Franklin has been recognized for his contributions to science and conservation by the Society of American Foresters, the U.S. Department of Agriculture, the Wilderness Society, the Society for Conservation Biology and the George Wright Society. He holds an honorary degree from Simon Fraser University.

In 2004, Dr. Jerry Franklin received the Heinz Foundation Award for the Environment. In accepting the award, he noted that there are many new threats to forests and wilderness lands, including climate change, the globalization of the wood products industry, and exotic pests and pathogens that have been introduced.

He is currently Professor of Ecosystem Analysis in the College of Forest Resources at the University of Washington in Seattle. His research into maintaining forest biodiversity is documented in nearly 300 publications.

Herpreet Lamba
Financial Consultant

Born and raised in Thunder Bay, Herpreet Lamba chose Lakehead University for his post-secondary education and graduated with an H.B.Sc. in Mathematics in 1998.

Shortly after graduation, Herpreet joined Investors Group Inc. as a consultant. Investors Group is a leading Canadian financial services company, providing financial planning advice and a wide range of products such as Registered Retirement Savings Plans, Registered Retirement Income Funds, Deferred Profit Sharing Plans, life and disability insurance, Guaranteed Investment Certificates and mortgages. Herpreet rose quickly to become the youngest Division Director in the country, and has built a reputation in the company for hard work, integrity and mentoring of new consultants.

In the eight years since his graduation, Herpreet has also demonstrated a deep desire to serve his community. He is an active volunteer, often spearheading Investors Group's involvement in charity fundraisers for a broad range of organizations, including Lakehead University and the United Way. A recent initiative of Herpreet's was to make charitable donations to the Thunder Bay Regional Cancer Centre in his clients' names as unique Christmas gifts.

Herpreet is a member of the Port Arthur Rotary Club and has been responsible for the Rotary Outbound Student Exchange Program. He received the club's 2003-2004 Rotarian of the Year Award for "Service above self."

Herpreet also believes in building bridges between his family's cultural heritage and the Canadian mainstream. His recent marriage to Nevada Ward included both a Roman Catholic service and a traditional Sikh ceremony, believed to be the first Sikh wedding in Thunder Bay in at least forty years. Three Sikh priests from Winnipeg performed the ritual, which included the groom arriving on horseback, and the exchange of garlands between the families of the bride and groom.

Herpreet says his education at Lakehead University has been instrumental to his success. He is enthusiastic about Thunder Bay's future and looks forward to raising a family here. As his career moves ahead, Herpreet continues to share his successes and coaches others starting out.
